Economics. Premium Collection. Illustrated Adam Smith, David Ricardo, Karl Marx, Alfred Marshall, John Maynard Keynes, 2021-11-10 Economics is a social science concerned with the production distribution and consumption of goods and services It studies how individuals businesses governments and nations make choices about how to allocate resources Economics can generally be broken down into macroeconomics which concentrates on the behavior of the economy as a whole and microeconomics which focuses on individual people and businesses The founding of modern Western economics generally credited to the publication of Scottish philosopher Adam Smith s 1776 book An Inquiry Into the Nature and Causes of the Wealth of Nations In this book the classic works of the founders of economic theory are selected The Wealth of Nations by Adam Smith On the Principles of Political Economy and Taxation by David Ricardo Capital by Karl Marx Principles of Economics by Alfred Marshall The General Theory of Employment Interest and Money by John Maynard Keynes *The English and French in North America, 1689-1763. 1887* Justin Winsor, 1887 Applied Mechanics Reviews, 1948 Capital. Illustrated Karl Marx, 2020-01-14 Das Kapital also called Capital A Critique of Political Economy is the most cited book in the social sciences published before 1950 Marx aimed to reveal the economic patterns underpinning the capitalist mode of production in contrast to classical political economists such as Adam Smith Jean Baptiste Say David Ricardo and John Stuart Mill Marx proposes that the motivating force of capitalism is in the exploitation of labor whose unpaid work is the ultimate source of surplus value Das Kapital proposes an explanation of the laws of motion of the capitalist economic system from its origins to its future by describing the dynamics of the accumulation of capital the growth of wage labour the transformation of the workplace the concentration of capital commercial competition the banking system the decline of the profit rate land rents et cetera Political Shakespeare Stephen Orgel, Sean Keilen, 1999 Shakespeare has never been more ubiquitous not only on the stage and in academic writing but in film video and the popular press On television he advertises everything from cars to fast food His birthplace the tiny Warwickshire village of Stratford Upon Avon has been transformed into a theme park of staggering commercialism and the New Globe in its second season is already a far bigger business than the old Globe

could ever have hoped to be If popular culture cannot do without Shakespeare continually reinventing him and reimagining his drama and his life neither can the critical and scholarly world for which Shakespeare has for more than two centuries served as the central text for analysis and explication the foundation of the western literary canon and the measure of literary excellence The Shakespeare the essays collected in these volumes reveal is fully as multifarious as the Shakespeare of theme parks movies and television Indeed it is part of the continuing reinvention of Shakespeare The essays are drawn for the most part from work done in the past three decades though a few essential enabling essays from an earlier period have been included They not only chart the directions taken by Shakespeare studies in the recent past but they serve to indicate the enormous and continuing vitality of the enterprise and the extent to which Shakespeare has become a metonym for literary and artistic endeavor generally

Africans and Native Americans Jack D. Forbes, 1993-03-01 Jack D Forbes s monumental *Africans and Native Americans* has become a canonical text in the study of relations between the two groups Forbes explores key issues relating to the evolution of racial terminology and European colonialists perceptions of color analyzing the development of color classification systems and the specific evolution of key terms such as black mulatto and mestizo terms that no longer carry their original meanings Forbes also presents strong evidence that Native American and African contacts began in Europe Africa and the Caribbean
