As you start your journey, you'll learn all about the effects aroma, taste, preference, and personal experience can have on flavor. Just as important, you'll become a tasting Anarchist, throw out the conventional advice, and figure out what works for you. Then on to the pairing. Begin with beer styles, start with your favorite foods, or join the authors on a series of wild palate trips. From classics like barbecue ribs with American Brown Ale to unusual matches like pineapple upside-down cake with Double India Pale Ale, you'll learn why some pairings stand the test of time and you'll find plenty of new ideas as well. With complete information for planning beer dinners and cooking with beer, tips from pro brewers, and geek-out science features, Julia and Gwen will make sure you never look at beer or food the same way again.

The Geography of Beer Mark Patterson, Nancy Hoalst-Pullen, 2014-03-15. This edited collection examines the various influences, relationships, and developments beer has had from distinctly spatial perspectives. The chapters explore the functions of beer and brewing from unique and sometimes overlapping historical, economic, cultural, environmental, and physical viewpoints. Topics from authors, both geographers and non-geographers alike, have examined the influence of beer throughout history, the migration of beer on local to global scales, the dichotomous nature of global production and craft brewing, the neolocalism of craft beers, and the influence local geography has had on beer's most essential ingredients: water.
