Intellectual Property Management for Start-ups Martin A. Bader, Sevim Süzeröğlu-Melchior, 2023-02-16. This book examines intellectual property (IP) as an important value driver for start-ups. Businesses of all sizes are inevitably confronted with intellectual property issues at some point but start-ups and their collaborators face unique challenges and opportunities in IP management. Identifying, generating and exploiting intellectual property can lead to sustainable competitive advantages and avoidance of risks. Many start-ups sense the complexity of IP management and therefore place their energy elsewhere. However, the clear conclusion to be drawn from this unique collection of contributions is that putting an IP management strategy in place is critical to the successful development of a business. Prof. Dr. Martin A. Bader and Prof. Dr. Sevim Süzeröğlu-Melchior have years of experience as consultants, entrepreneurs, business owners and researchers where they saw firsthand the need for a comprehensive yet practical resource for start-ups and their key stakeholders. This book explores different perspectives in dealing with IP from six different angles: the start-up's view, the investor's view, the corporation's view, the university's view, the global IP office's view and the advisor's view. Each section consists of chapters written by leading experts from around the globe, including
