Amelia Earhart

Name: _____

Amelia Earhart was an iconic American aviator known for her groundbreaking achievements in aviation and her pioneering spirit. During an attempt to circumnavigate the globe from July 28, 1931, in Honolulu, Hawaii, Earhart developed a personal fear of flying at night, despite the fact she had been experiencing trouble since 1928.

In 1935, Earhart joined the United States as the first woman to fly across the Atlantic Ocean, albeit as a passenger (the plane's crew) after a difficult two years of training by becoming the first woman to fly solo across the Atlantic. This daring feat was completed on May 20–21, 1935, in a Lockheed Vega 5B, earning her the Distinguished Flying Cross from Congress.

Earhart continued to break barriers, setting numerous altitude records and advocating for women's rights and opportunities in aviation. In 1937, she became the first person to fly solo from Honolulu, Hawaii, to Oakland, California, less than four hours, a record for flying over long distances. However, Earhart's dream of circumnavigating the globe in 1937 ended in tragedy. Earhart disappeared on her final attempt to fly solo across the Pacific Ocean. Her disappearance remains one of the most mysterious events in aviation history, with the plane and her remains never being found, leading to numerous theories and speculations about her fate.

Amelia Earhart's legacy inspired future generations of women in aviation. She was a trailblazer who inspired generations of women to pursue their dreams in fields traditionally dominated by men. Her courage, determination, and pioneering spirit continue to be celebrated today.
