KONTROVERSE IN SAPIENS 1 SAPIENTO UNIVERSALIST OF ARTIFICIAL INTELLIGENCE SYSTEM Constitution of European Union - TEN

Augustin Ostace, 2021-05-03 We are under pressure in rethinking and unthinking of the whole of the European Union history after big waves of union s earthquakes by mentioning here the big financial crisis between 2008 2010 or Brexit of Great Britain an embittered fought inside of the European Union between the years 2016 and the present 2020 It is not mentioned here the waves of migrants in the last ten years towards European Union through which a world of social pathology is accompanied and enhanced by a dramatic pandemic s world of biologic pathology this worst issues of viral disease out breaking in the year 2020 We will remake another configuration of the initial CONSTITUTION OF EUROPE written and published with about 15 years ago resembling a parallel dialectical becoming between a finisher and a re finisher in constitution or between an influencer and re influencer in social sciences Terminology of different constitutions will be

different in their substance and their semantics reflecting the difference in temporality and creativity of the author but the basic principles of ethics and morality are into the both constitutions the sameness If European Union needs a constitution then European Union must know the history of Europe European Union must know the inhabitants the native the people and citizens of Europe European Union must know and appreciate the science and technology of Europe the same European Union must have empathy over the art and religions of Europe over the geography and demography of Europe since the oldest times of Upper Paleolithic of Neolithic of Antiquity of Middle Age of Renaissance of Enlightenment of Modern Times and of present Third Millennium all in detail all in reality all in morality in logos of proportionality and rationality More than that our Constitution of European Union is desired to be and to become a pilot project in searching and researching in anthropo sapientology a vector of axiological and epistemological substance in knowledge and discoveries of our Species and of our Genus Homo Anthropos Constitutionalist of European Union Archetype & Sapientosophy Augustin Ostace,2018-09-24 Could one know the totality ancestors of our Species Sapiens as accumulated experiences through Sapiens itself coming from Genus Homo Hominid Family Order Primate Class Mammals Phylum Vertebrata Kingdom Animals More than sure the answer is not just by taking into account that this chain of evolution has an average age of ca about 500 millions years of different eras and periods and the unnumerable ascendant species or genus or families had been already in extinct phase of paleontology of the earth But through a theoretical process of the psychoanalytic introversion into upright posture of the Hominid Family Genus Homo and Species Sapiens it is tried a confrontation not only with the supposed subconscious of this triad bipedic ancestor of present human but a re sensing of myth o poiesis enchained into the three interrelated evolutionary groups perhaps the main responsible for our qualities for our fragilities for our vulnerabilities and for our creativities This metaphor for a Species individuation with a huge emptiness around us united in contraries transcending ourselves towards unknown resembles a creative pathology in written into human who is the carrier of duality consciousness sub consciousness which is the mirror into which the cosmos and the nature are seen reflected Anthro Sapientosophist
