Slatton, 2015-11-17 In this book Brittany C

Slatton uses innovative internet research methods to reveal contemporary prejudices about relationship partners. In doing so, she thoroughly refutes the popular ideology of a post-racial America. Slatton examines the deep frame of white men found in opinions and emotional reactions to black women and their body types, personalities, behaviours, and styles of speech. Their internet responses to questionnaires show how they treat as common sense radicalised, gendered, and classed versions of black women. *Mythologizing Black Women* argues that the internet acts as a backstage setting, allowing white men to anonymously express raw feelings about race and sexuality without the fear of reprimand.

Women Empowerment and the Feminist Agenda in Africa Musingafi, Maxwell Constantine Chando, Hungwe, Chipso, 2023-10-24. This book argues that African women's lived experiences are often spoken about authoritatively by people who are not included within this demographic, relegating these women to the role of spectators in their own stories. The dominant narratives of African womanhood, legitimized by intellectual discourse, are neither written by African women nor Africans in general. This book seeks to place feminism in Africa into its historical context by revisiting the experiences, practices, vision, and theories of feminism and gender in Africa. It is intended to serve as a comprehensive introduction to the field and provide a starting point for further and more advanced study of the nexus of feminism, gender, and development in Africa. *Women Empowerment and the Feminist Agenda in Africa* is designed to initiate post-graduate research and studies in the social sciences for directed and critical inquiry into the nature of feminist and gender politics and power relations in Africa. It is written for researchers, academics, and advanced tertiary studies, although professional gender and feminist organizations, especially those in Africa or focusing on Africa, will also find a wealth of information. The book is recommended for university libraries, post-graduate students, and staff of the non-governmental community in Africa, women movement organizations in Africa, independent researchers, and academics, and the African community at large.

Provocations Susan Bordo, 2015-03-21. The first collection of its kind, *Provocations: A Transnational Reader in the History of Feminist Thought* is historically organized and transnational in scope, highlighting key ideas, transformative moments, and feminist conversations across national and cultural borders. Emphasizing feminist cross-talk, transnational collaborations, and influences, and cultural differences in context, this anthology heralds a new approach to studying feminist history. *Provocations* includes engaging, historically significant primary sources by writers of many nationalities in numerous genres, from political manifestos to theoretical and cultural analysis to poetry and fiction. These texts range from those of classical antiquity to others composed during the Arab Spring and represent Asia, the Middle East, Latin America, Western Europe, and the United States. Each section begins with an introductory essay that presents central ideas and explores connections among readings, placing them in historical, national, and intellectual contexts, and concluding with questions for discussion and reflection.
