The Ancient World Frank N. Magill, 2003-12-16 Containing 250 entries each volume of the Dictionary of World Biography contains examines the lives of the individuals who shaped their times and left their mark on world history Much more than a Who's Who each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements and conclude with a fully annotated bibliography The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history Any student in the field will want to have one of these as a handy reference companion **Freud and the Imaginative World** Harry Trosman, 2013-05-13 The current resurgence of interest in the scientific origins of psychoanalysis has overshadowed the artistic and literary models to which Freud had recourse time and again in the development and presentation of his theories It is this neglected aesthetic wellspring of psychoanalysis to which Harry Trosman calls attention in *Freud and the Imaginative World* Trosman

enriches our understanding of psychoanalysis by demonstrating how Freud's cultural and humanistic commitments guided his pursuit of a science of mind. Toward this end he undertakes a number of challenging tasks to situate Freud in the formative culture of his time to adumbrate the human concerns that informed his work in the natural sciences and to delineate the multiple modes of influence that fostered his creativity. The second part of the book moves from the cultural sources of Freud's creativity to the psychoanalytic contribution to our understanding of art and literature. Here Trosman focuses on the consumer of art and literature tracing psychoanalytic perspectives on aesthetic responsiveness from Freud to the present. Trosman's critical review of the da Vinci and Hamlet literature illustrates the limitations as well as the explanatory potential of the two principal genres of applied psychoanalytic work and leads naturally to the reflective estimation of psychoanalysis and creativity that concludes the work. Throughout Trosman is a well informed and engaging guide both to the imaginative Freud and to the abundant literature on psychoanalysis and the arts. He documents Freud's continuing indebtedness to the literary models that nourished his theorizing and gave shape to his narrative clinical expositions even as he takes pains to show how psychoanalysis has in many ways outgrown Freud's own reductive explanations of aesthetic phenomena. A skillfully crafted overview, *Freud and the Imaginative World* is an exemplary introduction to a crucial aspect of the Freudian legacy.

[The Routledge International Handbook of Critical Education](#)

Michael W. Apple, Wayne Au, Luis Armando Gandin, 2009-02-17

The Routledge International Handbook of Critical Education is the first authoritative reference work to provide an international analysis of the relationship between power, knowledge, education and schooling. Rather than focusing solely on questions of how we teach efficiently and effectively, contributors to this volume push further to also think critically about education's relationship to economic, political and cultural power. The various sections of this book integrate into their analyses the conceptual, political, pedagogic and practical histories, tensions and resources that have established critical education as one of the most vital and growing movements within the field of education, including topics such as social movements and pedagogic work, critical research methods for critical education, the politics of practice and the recreation of theory, the Freirian legacy. With a comprehensive introduction by Michael W. Apple, Wayne Au and Luis Armando Gandin, along with thirty-five newly commissioned pieces by some of the most prestigious education scholars in the world, this Handbook provides the definitive statement on the state of critical education and on its possibilities for the future.
