, 1985 [Virtual Caliphate](#) Yaakov Lappin, 2011 In 1924 the last caliphate an Islamic state as envisioned by the Koran was dismantled in Turkey With no state in existence that matches the radical Islamic ideal since al Qaeda which sees itself as a government in exile along with its hundreds of affiliate organizations has failed to achieve its goal of reestablishing the caliphate It is precisely this failure to create a homeland journalist Yaakov Lappin asserts that has necessitated the formation

of an unforeseen and unprecedented entity that is a virtual caliphate An Islamist state that exists on computer servers around the world the virtual caliphate is used by Islamists to carry out functions typically reserved for a physical state such as creating training camps mapping out a state s constitution and drafting tax laws In Virtual Caliphate Lappin shows how Islamists equipped with twenty first century technology to achieve a seventh century vision soon hope to upload the virtual caliphate into the physical world Lappin dispels for the reader the mystery of the jihadi netherworld that exists everywhere and nowhere at once Anyone interested in understanding the international jihadi movement will find this concise treatment compelling and indispensable
