Albrecht Durer 200 Masterpieces Annotated Masterpieces 77:

Albrecht Durer Maria Tsaneva, 2014-12-30 This Art Book with Foreword and annotated reproductions by Maria Tsaneva contains 200 selected paintings drawings and prints of Albrecht Durer. Albrecht Durer was certainly the most significant painter and engraver of the Northern Renaissance. Living in Nuremberg between Netherlands and Italy he found inspiration in the two most important centers of art at his time. But instead of simply imitating Durer goes own way of discoverer. He has published hundreds engravings. At least 60 of his paintings have also survived and there are a thousand of his drawings and watercolors. The range of his work is just amazing. His woodcarvings made him famous all over Europe and he is considered the best master in this area. As a painter Durer has the equal success as in the paintings of religious topics also in those with secular topics. He painted portraits as well as altars. His drawings and watercolors even today strike us with a variety of techniques and were painted with an almost phenomenal precision. To summarize in just few words Durer is one of the most prominent figures for the development of the whole European painting.

Neurological Disorders in Famous Artists - Part 2 J. Bogousslavsky, Julien Bogousslavsky, M. G. Hennerici, 2007-05-22 Neurological Disorders in Famous Artists Part 2 presents more writers philosophers musicians painters and film directors who developed some form of neurological dysfunction and whose style and output changed following a stroke or other cerebral disorder. Mozart Baudelaire de Kooning Proust F. Schlegel Heine Fellini Visconti and others are all striking examples of how extraordinary creativity can be challenged and modified or destroyed and restored all within the drama of a disease. When brain disease challenges the capabilities of artists the changes that subsequently occur in their work provide a unique opportunity to explore the mysteries of creativity. This may also lead to a better understanding on how certain artists developed particularly when the course of a disease corresponds with what is generally recognized as a new chapter in their work. This book offers a fascinating read for neurologists psychiatrists general physicians and anybody interested in art literature music and film.
