## Ans Et Alors:

, **First Letters in the Eighteenth and Nineteenth Centuries** Alain Kerhervé, Catherine Thomas-Ripault, 2020-07-09 First letters can be understood in various ways as the first letters written by a person such as the letters of children or of drafts which were preserved amended and copied as the first letter of a particular type such as an experienced letter writer's first love letter and as the first letter to a new correspondent among many others The idea of a first letter also suggests a link with the letters that follow what is the connection between the first letter and those which come after it Written by academics specializing in letter writing internationally this volume examines the letters of various authors philosophers and artists including Benjamin Constant Jos Maria de Heredia Voltaire Diderot Coleridge De Quincey and others It is structured in four sections letters from youth first letters in fictional works the writer's persona and first letters within correspondence

**La Sainte Bible, Ou L'Ancien Et Le Nouveau Testament**, 1858 **Agency Perception and Moral Values Related to Autonomous Weapons** Ilse Verduyn, 2021-10-18 The deployment of Autonomous Weapons gives rise to ongoing debate in society and at the United Nations in the context of the Convention on Certain Conventional Weapons Yet little empirical research has been done on this topic This volume fills that gap by offering an empirical study based on military personnel and civilians working at the Dutch Ministry of Defence It yields insight into how Autonomous Weapons are perceived by the military and general public and which moral values are considered important in relation to their deployment The research approach used is the Value Sensitive Design VSD method that allows for the consideration of human values throughout the design process of technology The outcome indicates that military personnel and civilians attribute more agency the capacity to think and plan to an Autonomous Weapon than to a Human Operated Drone In addition it is clear that common ground exists between military and societal groups in their perception of the values of human dignity and anxiety These two values arise often in the discourse and addressing them is essential when considering the ethics of the deployment of Autonomous Weapons The text of this volume is also offered in parallel French and German translation

French Today Carol Sanders,1993-04-08 French Today is a profile of the French language in its social context British and French linguists examine trends in French throughout the French speaking world and address issues around prescriptivism gender and language and regional languages and dialects The collection includes overviews of work done in particular areas and deeper analyses of sociolinguistic questions One theme is how to represent and interpret data relating to language varieties that have been marginalised Another concerns the ways in which French is adapting to the future whether as a language of new technology or as a vehicular language on the continent All chapters of this book are in English with examples and quotations in French and a mixture of references given in both languages At the end of each chapter there are also texts in French serving as illustration and as pointers to further reading **Cartographies of Time** Daniel

Ashby,2023-03-15 This scholarly edition invites us to reconsider our assumptions about the French language by showcasing the oeuvre of one of the pioneers of diachronic Spoken French corpus linguistics William J Ashby and the ground breaking findings to come out of his influential Tours corpora 1976 1995 including two real time studies appearing for the first time in English translation To help readers visualize just how radically different the morphosyntax morphophonology and semantics of Spoken French are from French on the page the editor has developed a glossing framework designed to capture the systemic radically prefixal morphology of Spoken French and the variability of change in progress The model presented here and used to gloss the examples from the Tours corpus is also suitable for corpus tagging The volume is organized into sections preceded by an Editor s note and followed by suggestions for further reading and closes with an appendix of French

corpora This scholarly edition was written for advanced undergraduates graduate students and scholars in the field
