Guide to Cartridges Todd Woodard, 2011-10-01 Shooter's Bible for generations the most trusted source of detailed information on firearms offers gun enthusiasts a full color guide to everything they need to know about cartridges Have you ever wondered which cartridge was appropriate for your gun or a friend's gun Have you been curious about which cartridges are best for which shooting needs If so then this is the manual for you Shooter's Bible Guide to Cartridges will help those with revolvers rifles and other guns Chapters include Triple Deuces 4K 22s The Sweet 6mms The Quarter Bores Pretenders to the 270 Magnum 308s Martial Cartridges Historic 9mms And more For more than a century the Shooter's Bible name has been trusted and well known as an authoritative guide on ammunition and guns Their works contain applicable skills and this particular book increases the reader's understanding of guns and cartridges It is the ideal addition to the bookshelf of anyone who is passionate about guns Using it will make mastering cartridge usage easy **Naval Firepower** Norman

Friedman, 2013-08-20 For more than half a century the big gun was the arbiter of naval power but it was useless if it could not hit the target fast and hard enough to prevent the enemy doing the same Because the naval gun platform was itself in motion finding a firing solution was a significant problem made all the more difficult when gun sizes increased and fighting ranges lengthened and seemingly minor issues like wind velocity had to be factored in To speed up the process and eliminate human error navies sought a reliable mechanical calculation This heavily illustrated book outlines for the first time in layman's terms the complex subject of fire control as it dominated battleship and cruiser design from before World War I to the end of the dreadnought era Covering the directors range finders and electro mechanical computers invented to solve the problems America's leading naval analyst explains not only how the technology shaped and was shaped by the tactics involved but analyses their effectiveness in battle His examination of the controversy surrounding Jutland and the relative merits of competing fire control systems draws conclusions that will surprise many readers He also reassesses many other major gun actions such as the battles between the Royal Navy and the Bismarck and the US Navy actions in the Solomons and at Surigao Strait All major navies are covered and the story concludes at the end of World War II with the impact of radar This is a book that everyone with a more than passing interest in twentieth century warships will want to read and nobody professionally involved with naval history can afford to miss *Gun digest* Ken Warner, 1975 **The Book of the**
