Smith,2022-04-02 This is an account of the nation s first intelligence agency the Office of Special Services O S S how it operated what it accomplished and how it laid the basis for the present Central Intelligence Agency and how its charismatic founder Wild Bill Donovan established control over it recruited its staff and most importantly sold Roosevelt the armed services the Allies and the rest of the country on the agency s varied and often bizarre shadow warfare missions during World War II The O S S s special relationship with the British the key role of academics and its embarrassing connection with the Soviets N K V D are also addressed Smith concludes that the creation of the C I A after the war owed less to the accomplishments of the O S S than to Donovan s public relations skills and the precarious military situation the country found itself in at the time Mr Smith has done an exhaustive job of research on the O

Nature and the Environment in Twentieth-Century American Life Brian C.

Black, 2006-05-30 Americans during the twentieth century became more disconnected from the environment and nature than ever before. More Americans lived in cities rather than on farms; they became ever more reliant on technology to interact with the world around them and with each other. Perhaps paradoxically, the twentieth century also became the period in which environmental issues played an ever-increasing role in politics and public policy. Why is this so? Perhaps because, despite what many people believe, nature and the environment remains central to everyone's daily life. Pollution, environmental degradation, urban sprawl, loss of wildlife and biodiversity—all of these issues directly impact how everyone, even city dwellers, live their lives. *Nature and the Environment in Twentieth Century America* addresses a wide variety of the environmental issues that impacted the lives of people of all classes, races, and regions. The expansion of the National Park system and the increased desire for leisure time spent in the great outdoors. The devastation of the Dust Bowl and its impetus toward conservation and a greater understanding of ecology. Grassroots activism and environmental politics from Rachel Carson to Love Canal. The impact of globalization and its environmental consequences on the daily lives of Americans. Part of the *Daily Life through History* series, this title joins *Nature and the Environment in Nineteenth Century America* in a new branch of the series, titles specifically looking at how science innovations impacted daily life.

Congressional Record United States. Congress, 1992 The *Congressional Record* is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The *Congressional Record* began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824, the *Register of Debates in Congress* 1824-1837, and the *Congressional Globe* 1833-1873.

A Portion of the People McKissick Museum, 2002 In the year 1800, South Carolina was home to more Jews than any other place in North America. As old as the province of Carolina itself, the Jewish presence has been a vital but little-examined element in the growth of cities and towns, in the economy of slavery and post-slavery society, and in the creation of American Jewish religious identity. The record of a landmark exhibition that will change the way people think about Jewish history and American history, *A Portion of the People: Three Hundred Years of Southern Jewish Life* presents a remarkable group of art and cultural objects and a provocative investigation of the characters and circumstances that produced them. The book and exhibition are the products of a seven-year collaboration by the Jewish Historical Society of South Carolina, the McKissick Museum of the University of South Carolina, and the College of Charleston. Edited and introduced by Theodore Rosengarten, with original essays by Deborah Dash Moore, Jenna Weissman Joselit, Jack Bass, curator Dale Rosengarten, and Eli N. Evans, *A Portion of the People* is an important addition to southern arts and letters. A photographic essay by Bill Aron, who has documented Jewish

Community and Polity Daniel Judah Elazar, 1995 An update and revision of the original 1976 edition This study presents a two fold discussion a basic survey of the structure and functions of the American Jewish community and a suggestion as to how that community should be understood as a body politic a collective unit that is not a state but is no less real from a political perspective
