Answer Key For Comparing Revolutionary Movements

Answer Key For Comparing Revolutionary Movements:

No Other Way Out Jeff Goodwin, 2001-06-04 *No Other Way Out* provides a powerful explanation for the emergence of popular revolutionary movements and the occurrence of actual revolutions during the Cold War era. This sweeping study ranges from Southeast Asia in the 1940s and 1950s to Central America in the 1970s and 1980s and Eastern Europe in 1989. Following in the state-centered tradition of Theda Skocpol's *States and Social Revolutions* and Jack Goldstone's *Revolutions and Rebellion in the Early Modern World*, Goodwin demonstrates how the actions of specific types of authoritarian regimes unwittingly channeled popular resistance into radical and often violent directions. Revolution became the only way out to use Trotsky's formulation for the opponents of these intransigent regimes. By comparing the historical trajectories of more than a dozen countries, Goodwin also shows how revolutionaries were sometimes able to create and not simply exploit opportunities for seizing state power. *The Comparative Approach to National Movements* Alexander Maxwell, 2014-07-16 Miroslav Hroch's *Social Preconditions of National Revival* has profoundly influenced the study of nationalism since it first appeared in English translation, particularly because of its famous three-phase model for describing and analyzing national movements in Eastern Europe. Contributors to this book explore Hroch's continued relevance to the field of nationalism studies with four case studies and two theoretical historiographic essays. Two case studies apply Hroch's thinking to Eastern Europe in light of subsequent historiography, finding that Hroch's ideas remain useful for understanding national movements in Belarus and among the Kuban Cossacks. Two further studies apply Hroch's schema to the Mexican independence movement and contemporary Pakistan, times and places that Hroch specifically excluded from his own considerations. The first theoretical contribution seeks to apply *Begriffsgeschichte* to Hroch's work; the second suggests that Hroch's phases form a useful typology of nationalism, thus facilitating communication between different branches of nationalism studies. Hroch ends the volume with his own commentary on the various contributions. This book was published as a special issue of *Nationalities Papers*. *Issues and Methods in Comparative Politics* Todd Landman, 2002-01-04 *Why do we compare nations? How do we compare nations? What are the big issues in comparative politics?* *Issues and Methods in Comparative Politics* provides students with the answers to these fundamental questions. It is an accessible and user-friendly text which explores the strategies of comparative research in political science. This book has been designed to make a complex subject easy and accessible to students. Features of this textbook include briefing boxes located throughout which explain key concepts and ideas, suggestions for further reading at the end of each chapter, a glossary of terms. *Comparative Education* Nicholas Hans, 2012-08-21 This book is divided into four parts. In Part One, the author considers the natural factors which have influenced the various national systems of education. They comprise racial, linguistic, geographical, and economic factors. In Part Two, he considers the contribution of religious traditions to education, more particularly those of the Catholic and Puritan faiths, and in Part Three, the secular traditions of humanism, socialism, and nationalism. Finally, in Part Four, a comparison is
