two hydrogen atoms share their valence electrons, both atoms achieve the electronic configuration of noble gas & satisfy the duplet rule.

Types of Covalent Bond:

Depending upon the number of bond pair, a covalent bond is further classified into three types.

- ◊ Single Covalent Bond
- ◊ Double Covalent Bond
- ◊ Triple Covalent Bond

Single Covalent Bond (-)

A covalent bond which is formed by the mutual sharing of one bond pair is called a single covalent bond and it is represented by a single short straight line. The formation of $H-H$, $H-Cl$, CH_4 are few examples of this type of bonding.

Examples:

Formation of Chlorine Molecule:

One more electron to achieve a stable octet electronic configuration. When two chlorine atoms share their valence

Information Processing and Living Systems Vladimir B. Baji?,Tin Wee Tan,2005 Information processing and information flow occur in the course of an organism s development and throughout its lifespan Organisms do not exist in isolation but interact with each other constantly within a complex ecosystem The relationships between organisms such as those between prey or predator host and parasite and between mating partners are complex and multidimensional In all cases there is constant communication and information flow at many levels This book focuses on information processing by life forms and the use of information technology in understanding them Readers are first given a comprehensive overview of biocomputing before navigating the complex terrain of natural processing of biological information using physiological and analogous computing models The remainder of the book deals with artificial processing of biological information as a human endeavor in order to derive new knowledge and gain insight into life forms and their functioning Specific innovative applications and tools for biological discovery are provided as the link and complement to biocomputing Since artificial processing of biological information is complementary to natural processing a better understanding of the former helps us improve the latter Consequently readers are exposed to both domains and when dealing with biological problems of their interest will be better equipped to grasp relevant ideas **20 Years Chapterwise Topicwise (2021-2002) JEE Main**
