

STAAR Science Tutorial 46 **TEK 7.12B: Human Organ Systems**

TEK 7.12B: *Identify the main functions of the systems of the human organism, including the circulatory, respiratory, skeletal, muscular, digestive, excretory, reproductive, integumentary, nervous, and endocrine systems.*

- The five organizational levels of the human body are (1) cell, (2) tissue, (3) organ, (4) organ system, and (5) organism.
- Cells, the smallest functional units in an organism, take in raw materials and make proteins and other products through chemical reactions.
- Cells are organized into tissues, groups of similar cells that do the same sort of work.
- Tissues are organized into organs, structures made up of different types of tissue that work together.
- Organs are organized into organ systems, groups of organs working together to do a particular job. There are 11 different organ systems in the human body. These include the (1) Integumentary (Skin); (2) Muscular; (3) Skeletal; (4) Nervous; (5) Endocrine; (6) Circulatory; (7) Lymphatic; (8) Respiratory; (9) Digestive; (10) Urinary/Excretory; and (11) Reproductive. These are described in more detail below:
- The organ systems together make up the whole organism.
- **Integumentary System** – This system includes skin and hair as organs. The skin protects all of the other organs of the body from attack by germs and viruses, and helps the body to minimize water loss. Hair helps to protect the body from heat loss and protects the skin from ultraviolet rays (sunburn).
- **Muscular System** – This system includes muscles as an organ. There are three kinds of muscle tissue: skeletal muscles that move the skeleton, smooth muscles that provide control and movement in other organs, and cardiac muscles that pump blood through the heart. In addition, the connective tissue (tendons) connects muscles to bones.
- **Skeletal System** – This system includes bones and joints as organs. This system protects vital organs of the body, such as the lungs, heart, brain and spinal cord, and provides support for all of the organ systems. By working with the muscular system, it also allows the body to move, secure food and protect itself.

Answer Key For Staar Science Tutorial 46

Jessica J Manson

Answer Key For Staar Science Tutorial 46:

Recognizing the quirk ways to acquire this books **Answer Key For Staar Science Tutorial 46** is additionally useful. You have remained in right site to begin getting this info. acquire the Answer Key For Staar Science Tutorial 46 member that we have enough money here and check out the link.

You could purchase lead Answer Key For Staar Science Tutorial 46 or get it as soon as feasible. You could quickly download this Answer Key For Staar Science Tutorial 46 after getting deal. So, in imitation of you require the book swiftly, you can straight acquire it. Its suitably very simple and for that reason fats, isnt it? You have to favor to in this space
