AL-6000 is a device that measures alcohol content in the human breath and displays the results as blood alcohol concentration (BAC).

The unit can be operated in Active Mode and Passive Mode, as described below.

Active Mode Operation
If you attach and use the mouthpiece provided with the unit, you are operating the device in Active Mode.

- Instructions**
a. Press in and hold the power switch to turn the unit on. You can see the cumulative test count, **EST** and **POF** will be displayed continuously.
b. Release the power switch with test count or **EST** sign is displayed then you can see the sensor **POF** in the display, indicating device status operation. There will be an automatic countdown from **2.5H** to **0.0** as the unit warms up. After two days before the device is ready to use.
c. Before you use around the mouthpiece and place mouthpiece and steadily into the unit for at least 5 seconds. You will hear two beeps when the testing has finished using this device sample. You will see the sign **0.0** moving left to right in the display as the device is analyzing the sample.
d. After analysis is complete, you will see the blood alcohol concentration (BAC) results displayed.
e. The results will be displayed for approximately 10 seconds after which the unit will shut itself off.
f. If the device sensor tests a successful sample, you will see **0.0** in the display and the unit will shut itself off.

--	--	--	-----------------------------------

*Consumption of alcohol in 100g amount may impair the ability to operate a motor vehicle. There is no "safe" level for alcohol consumption before driving. Don't drink and drive.

Passive Mode Operation
You can operate the unit in Passive Mode without using a mouthpiece. Tests will be quicker and more convenient, but results will be given in BAC ranges, rather than a numerical reading.

- Instructions**
a. Press in and hold the power switch to turn the unit on. You can see the cumulative test count, **EST** and **POF** will be displayed continuously.
b. Release the power switch when **EST** sign is displayed then you will see the sensor **POF** in the display, indicating Passive Mode operation. There will be an automatic countdown from **2.5H** to **0.0** as the unit warms up.
c. Before you use around the mouthpiece and place mouthpiece and steadily into the unit for at least 5 seconds. You will hear two beeps when the testing has finished using this device sample. You will see the sign **0.0** moving left to right in the display as the device is analyzing the sample. After analysis is complete, you will see the blood alcohol concentration (BAC) results displayed.
d. In Passive Mode, you can immediately do another test when you see **EST** in the display after the unit has shown the measurement for the previous test.

*Consumption of alcohol in 100g amount may impair the ability to operate a motor vehicle. There is no "safe" level for alcohol consumption before driving. Don't drink and drive.

Warnings

- Always use at least 20 minutes after eating or drinking before testing. Any type of alcohol remaining in the mouth or going into the lungs with proper testing will require about 20 minutes to disappear. This includes alcohol-based mouthwashes or similar products.
- Always testing in open and well-ventilated or in poorly ventilated / enclosed spaces. Poor ventilation may also lengthen the time required for tests to be between tests.
- Do not drive before, during or after consuming using the mouthpiece, as the sensor may become damaged.
- Do NOT use the mouthpiece AL-6000 as a tool to drive and drive.
- Keep out of direct sunlight and out of the reach of children.
- To maintain accuracy, the manufacturer recommends replacement of the mouthpiece AL-6000 every six (6) months or over 10 years.
- WARNING DISPLAY "Err"** - If you see "Err" in the display, the breath sensor was not strong enough for measurement. Please check on the unit again and check the device is strong and steady during testing.
- WARNING DISPLAY "Co"** - If you see "Co" in the display, the unit required recalibration or replacement. Please refer to the manual at the end of this document.
- WARNING DISPLAY "Bat"** - If you see "Bat" in the display, the unit is indicating that battery power is low. Please replace the battery.

Replace the battery cover at the bottom of the unit, and replace the old batteries with two new 3.0V "LAA" batteries. Make sure to properly align the batteries by looking at the "+" marks.

Warnings

The manufacturer warrants the product to be free from defects in workmanship or material including calibration under normal use for six (6) months from the date of purchase. This manufacturer's obligation under this warranty is limited to repairing, including or replacing the unit if returned along with proof of purchase.
