

World History 7.2 Revolution Brings Reform and Terror (222-227)

Guiding Question: How did the French Revolution change society, and how did it move away from the original goals?

1. Describe the events of the evening of August 4, 1789

On August 4, 1789, a number of noblemen gave rousing addresses in which they proclaimed their love for liberty and equality.

2. What are 3 main points in the Declaration of the Rights of Man?

The three basic tenets of the Declaration of Human Rights are freedom, property rights, and the right to oppose persecution.

3. How does the slogan "Liberty, Equality, Fraternity" sum up the goals of the revolution?

It is the necessity for France to be united, for all citizens to have equal rights and treatment, and for emancipation from previous class structures.

Estates -social classes

4. How did the National Assembly actions affect the Catholic Church?

Church leaders and priests were ordered to be elected and compensated like state officials when the assembly confiscated church properties. As a result, the Catholic Church lost both its political independence and its holdings.

5. Why was the Assembly hesitant to further tax the Bourgeoisie?

France had debt that needed to be paid off, and they were using high taxes and exorbitant costs to accomplish so. They were reluctant to impose additional taxes on the bourgeoisie since they already taxed them excessively and more heavily than other estates, and they feared a third estate uprising against them.

6. Why did the Assembly's actions anger the peasants and how would this affect future revolutionary action?

They detested the estate system because it kept them at the bottom and benefited the wealthy elite. Future revolutions would be impacted by this. It urged that the monarch implement economic reforms to guarantee that the populace had access to food. This group was known as the "3rd estate" and represented France's common people.

7. Why did Louis XIV and his family try to escape France?

Louis XVI reflected on his future as a king. Some of his advisors alerted him to the danger his family and he were in. Many monarchy supporters left France because they believed it to be unsafe. The royal family then attempted to flee France for the Austrian Netherlands in June 1791. However, as they got close to the border, they were stopped and taken back to Paris under supervision.

8. What type of government did the National Assembly create in 1791 and how would power be distributed?

The national assembly established a constitutional monarchy in 1791, with the elected parliament having the authority to pass and implement laws while the king served as the head of state.

9. Summarize the three general groups of the Legislative Assembly: (Radicals, Moderates, and Conservatives)

Radicals are those who want a radical overhaul of the social order or the entire political system (Set on the left) The moderates sought certain governmental changes, but fewer than the extremists (set in the middle) Conservatives supported the notion of a limited monarchy and favored little changes to the current system of governance (set on right)

10. Why did the Legislative Assembly declare war on Austria?

Following Austria's refusal to withdraw its troops from the French border and to retract its alleged threat to use force, When Austria and Prussia responded to France's declaration of war in the spring of 1792 with a concerted invasion, it was ultimately repulsed in the Battle of Valmy in September.

11. Why did Parisians imprison the Royal Family?

The newly established legislative assembly aimed to spread the uprising over all of Europe. France declared war on Austria in April 1792. Louis XVI was blamed for how poorly the war went. He lost his title and was sent in jail after being charged with treason.

12. What were the effects of the war on the daily life in Paris?

Hollywood or History? Scott L. Roberts, Charles J. Elfer, 2021-01-01 The challenges of teaching history are acute where we consider the world history classroom Generalized world history courses are a part of many if not most K 12 curricular frameworks in the United States While United States history tends to dominate the scholarship and conversation there are an equally wide number of middle level and secondary students and teachers engaged in the study of world history in our public schools And the challenges are real In the first place if we are to mark content coverage as a curricular obstacle in the history classroom generally then we must underscore that concern in the world history classroom and for obvious reasons The curricular terrain to choose from is immense and forever expanding dealing with the development of numerous civilizations over millennia and across a wide geographic expanse In addition to curricular concerns world historical topics are inherently farther away from most students lives not just temporally but often geographically and culturally Thus the rationale for the present text *Hollywood or History An Inquiry Based Strategy for Using Film to Teach World History* The reviews of the first volume *Hollywood or History An Inquiry Based Strategy for Using Film to Teach United States History* strategy have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioner Classroom utility and teacher practice have remained our primary objectives in developing the *Hollywood or History* strategy

and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history We believe that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching world history The book provides 30 secondary lesson plans grades 6 12 that address nine eras in world history

What Is Global History? Sebastian Conrad, 2017-08-29 The first comprehensive overview of the innovative new discipline of global history Until very recently historians have looked at the past with the tools of the nineteenth century But globalization has fundamentally altered our ways of knowing and it is no longer possible to study nations in isolation or to understand world history as emanating from the West This book reveals why the discipline of global history has emerged as the most dynamic and innovative field in history one that takes the connectedness of the world as its point of departure and that poses a fundamental challenge to the premises and methods of history as we know it What Is Global History provides a comprehensive overview of this exciting new approach to history The book addresses some of the biggest questions the discipline will face in the twenty first century How does global history differ from other interpretations of world history How do we write a global history that is not Eurocentric yet does not fall into the trap of creating new centrism How can historians compare different societies and establish compatibility across space What are the politics of global history This in depth and accessible book also explores the limits of the new paradigm and even its dangers the question of whom global history should be written for and much more Written by a leading expert in the field What Is Global History shows how by understanding the world s past as an integrated whole historians can remap the terrain of their discipline for our globalized present
