Woodbury, 2008 *Empower your Students for Success* George Woodbury's Algebra Series empowers students for future success in college level math courses through its early and often approach to functions and graphing integrated study strategies and quality exercise sets that encourage true conceptual understanding. The early and often approach to functions helps students prepare for future math courses. A Study Skill Strategy is introduced in each chapter opener and then expanded upon throughout the chapter in the Building Your Study Strategy boxes that appear before each exercise set. Students can further develop their study skills with the Study Skills Workbook written by Alan Bass to accompany the Woodbury texts. Vocabulary Exercises begin each section of exercises and check student understanding of the basic vocabulary presented in the preceding section.

Re-imagining Teaching Improvement David Lynch, Tony Yeigh, Wendy Boyd, 2024-01-01 This research based book focuses on re-imagining how to improve pedagogical and environmental approaches to teaching and teacher education across the early childhood to higher education sectors. It motivates educators, academics and researchers to stimulate thinking around the use of research to transform professional teaching and teacher education in imaginative ways. It showcases insights into the design and implementation of successful approaches to teaching improvement at the direct level of practice. This book provides a clear how to approach that identifies the general principles by which teaching improvement can be planned, monitored and evaluated as well as guidelines for contextualising these principles within specific educational levels and situations.
