Host Genetics in Viral Pathogenesis and Controls Ping An,Ju-Tao Guo,Cheryl Ann Winkler,2019-12-31 **We Stay the Same** Jason Roberts,2024-04-23 On a remote island in the South Pacific the Lavongai have consistently struggled to obtain development through logging and commercial agriculture Yet many Lavongai still long to move beyond the grind of subsistence work that has seemingly defined their lives on New Hanover Papua New Guinea for generations Following a long history of smaller scale and largely unsuccessful resource development efforts New Hanover became the site of three multinational controlled special agricultural and business leases SABLs that combined to cover over 75 percent of the island for ninety nine year lease terms These agroforestry projects were part of a national effort to encourage sustainable rural development by tapping into the growing global demand for agricultural lands and crops like oil palm and biofuels They were supposed to succeed where the smaller scale projects of the past had failed Unfortunately these SABLs resulted in significant forest loss and livelihood degradation while doing little to promote the type of economic development that many Lavongai had been hoping for It is within this context that We Stay the Same grounds questions of hope for transformative economic change within Lavongai assessments

of the inequitable relationships between global processes of resource development and the local lives that have become increasingly defined by the necessities and failures of these processes Written in a clear and relatable style for students We Stay the Same combines ethnographic and ecological research to show how the Lavongai continue to survive and make meaningful lives in a situation where their own hopes for a better future have often been used against them as a mechanism of a more distantly profitable dispossession Middle Powers and International Organisations Aynsley Kellow, Peter Carroll, 2017-05-26 This book provides a unique examination of how a middle power uses international organisations to achieve greater global influence The authors focus on the OECD the rich man s club of most of the world s wealthiest nations It demonstrates how the decision by Australia to apply for membership was a long drawn out process delayed by political factors Eventually agreement was reached with assurances that membership would provide access to valuable and timely policy related information especially in relation to international trade and finance In addition membership would potentially increase influence by providing greater access to its powerful member states at an earlier stage in their policy discussions and agreements
