Lee,2021-05-13 Accounting and Debt Markets Four Pieces on the Role of Accounting Information in Debt Markets provides novel and up to date evidence on the role of accounting information in debt markets Companies and organisations worldwide rely heavily on debt markets for short medium and long term financing and debt markets and financial intermediaries have significant effects on the real economy Accounting information has various functions in debt markets including inter alia informing pricing decisions and credit ratings determining the allocation of creditor control rights and establishing bank capital adequacy requirements The chapters in this book provide illustrative discussion analysis and evidence on the importance of accounting information in credit markets The first of the four pieces reflects on how a conservative financial reporting system helps firms obtain debt funds and with better conditions and why this is the case The second examines the effects of accounting disclosure on credit ratings of private companies and shows that accounting information is useful for credit rating agencies The two final pieces reflect on how banks should account for credit losses and on how regulators are tackling this issue The chapters in this book were originally published as a special issue of Accounting and Business Research

Global Economic Prospects, Volume 9, June 2014 World Bank World Bank,2014-06-10 The global economy got off to a bumpy start this year but growth in 2015 and 2016 looks to be broadly on track Projections for developing countries in 2014 have been down downgraded by 0.5 percentage points to 4.8 percent mainly reflecting weak first quarter growth in the US due to weather and the conflict in Ukraine Going forward growth is projected to firm to 5.3 and 5.5 percent in 2015 and 2016

supported by easy global financial conditions and rebounding exports as high income countries continue to recover under the influence of a reduced drag from fiscal consolidation and improving labor markets Financial conditions will eventually tighten and when they do there is risk of further volatility Most developing countries are in good fiscal and financial shape but where vulnerabilities remain countries need to tighten policy to reduce the potential impact of external shocks Overall growth for developing countries will be solid but not strong enough to generate the income and employment gains needed to eliminate poverty by 2013 As a result countries need to focus on structural reform in order to lift growth in an enduring and sustainable manner *Business Transformation and Sustainability through Cloud System Implementation* Soliman,
