ANSWERS IN GENESIS

1 In the beginning God
and the earth.

2 And the earth was
void: and darkness was
deep. And the Spirit of God
face of the deep.

3 And God said, Let
there be light.

4 And God said, Let
heaven be gathered
and let the dry land
be seen.

5 And God called the gathering of
the waters Seas: and the
dry land was called Earth.

6 And God said, Let
the grass, the herb, the
tree yield seed: and let
it be fruitful.

7 And God said, Let
the tree yield seed
after its kind: and let
the herb yield seed
after its kind.

American Creationism, Creation Science, and Intelligent Design in the Evangelical Market Benjamin L.

Huskinson, 2020-08-19 In this compelling and thoroughly researched book Benjamin Huskinson demonstrates that just as there is broad diversity within evangelicalism so too there is broad diversity among creationists His work on the Intelligent Design movement is superb and he prompts me to rethink my long held conviction that Intelligent Design is merely the most recent evolutionary form of creationism This is a very fine book Randall Balmer Author of *Evangelicalism in America* and writer host of *In the Beginning* The Creationist Controversy Benjamin Huskinson's study of American creationism will be an eye opener for those who sit on the opposite side of the evolution debate He shows that far from being a unified assault on Darwinism the campaign was actually a sequence of separate movements launched by rival evangelical groups competing for influence within their own community Peter Bowler Author of *Monkey Trials and Gorilla Sermons* *Evolution and Christianity from Darwin to Intelligent Design* A thoughtful and careful analysis that throws as much light on the diversity of American evangelicalism as it does on Christian attitudes to evolutionary theory Huskinson offers a smart analysis of religious anti evolution movements which neither demonises nor ridicules but seeks to understand the tenets and beliefs of a movement far more complex and multivalent than most of us appreciate A must read for science communicators Philippa Levine Walter

Prescott Webb Chair in History and Ideas University of Texas at Austin USA This book explores the cultural history of anti evolution efforts in the United States from 1960 to the present refuting several popular narratives about creation science in evangelical America Separating theological terms like creationism from cultural movements such as creation science and intelligent design in an evangelical marketplace of ideas it contests assumptions that evangelical movements against evolution are homogeneous and it argues that intelligent design is not an off shoot of the creation science movement It demonstrates that the rationale of creationist groups is relational as well as ideological showing that the social function of American creationism which is to establish the boundaries of orthodox religion is key to understanding the competing strategies of creation science organisations

Saving the Original Sinner Karl W. Giberson,2016-05-10 A scientist and former evangelical argues that holding onto a belief in a literal historical Adam has forced many Christians to reject science and become intellectually isolated from the modern world The Bible s first man stands at the center of a crisis that is shaking much of Christianity In the evangelical world scholars have been ostracized and banished from their academic communities for endorsing a modern scientific understanding of the world even as they remained strong Christians Self appointed gatekeepers of traditional theology demand intellectual allegiance to an implausible interpretation of the Genesis creation story insisting that all humanity must be descended from a single perfect human pair Adam and Eve Such a view is utterly at odds with contemporary science It wasn t always this way Karl Giberson spotlights the venerable tradition of Christian engagement with new knowledge and discoveries When global exploration anthropology geology paleontology biblical studies and even linguistics cast doubt on the historicity of Adam and his literal fall into sin Christians responded by creatively reimagining the creation story letting Adam evolve to accommodate his changing context Even conservative evangelical institutions until recently encouraged serious engagement with evolutionary science unhindered by the straitjacket of young earth creationism intelligent design or other views demanding that Adam be a historical figure Giberson calls for a renewed conversation between science and Christianity and for more open engagement with new scientific discoveries even when they threaten central doctrines Christians should not be made to choose between their faith and their understanding of the universe Instead as Giberson argues they should follow in the once robust tradition of exploring science openly within the broad contours of Christian belief
