Analysis Of Footprints English Edition:

Melusine's Footprint ,2017-11-13 In *Melusine's Footprint Tracing the Legacy of a Medieval Myth* editors Misty Urban Deva Kemmis and Melissa Ridley Elmes offer an invigorating international and interdisciplinary examination of the legendary fairy Melusine Along with fresh insights into the popular French and German traditions these essays investigate Melusine's English Dutch Spanish and Chinese counterparts and explore her roots in philosophy folklore and classical myth Combining approaches from art history history alchemy literature cultural studies and medievalism applying rigorous critical lenses ranging from feminism and comparative literature to film and monster theory this volume brings Melusine scholarship into the twenty first century with twenty lively and evocative essays that reassess this powerful figure's multiple meanings and illuminate her dynamic resonances across cultures and time Contributors are Anna Casas Aguilar Jennifer Alberghini Frederika Bain Anna Lisa Baumeister Albrecht Classen Chera A Cole Tania M Colwell Zo Enstone Stacey L Hahn Deva F Kemmis Ana Pairet Pit P port Simone Pflieger Caroline Prud Homme Melissa Ridley Elmes Renata Schellenberg Misty Urban Angela Jane Weisl Lydia Zeldenrust and Zifeng Zhao

Handbook of Asian Criminology Jianhong Liu,Bill Heberton,Susyan Jou,2012-12-09 The *Handbook of Asian Criminology* aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general and the Asian region in particular Contextualization is a key theme in this book The role of context is often underemphasized in international criminology so the *Handbook of Asian Criminology's* premise that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them will play a key role throughout the work Attention will be given to country and region specific attitudes towards crime and punishment

Digital Libraries at Times of Massive Societal Transition Emi Ishita,Natalie Lee San Pang,Lihong Zhou,2020-11-27 This book constitutes the refereed proceedings of the 22nd International Conference on Asia Pacific Digital Libraries ICADL 2020 which was planned to be held in Kyoto Japan in November December 2020 but it was held virtually due to the COVID 19 pandemic The 10 full 15 short 4 practitioners and 10 work in progress papers presented in this volume were carefully reviewed and selected from 79 submissions The papers were organized in topical sections named natural language processing knowledge structures citation data analysis user analytics application of cultural and historical data social media metadata and infrastructure and scholarly data mining

Environmental performance of pig supply chains: Guidelines for assessment (Version 1) Food and Agriculture Organization of the United Nations,2018-02-23 This is a living document produced by the Livestock Environmental and Assessment Performance LEAP Partnership The document presents a methodology and provides guidance for the assessment of the environmental performance of pig supply chains It provides users guidance on how to apply the life cycle assessment approach to pig supply chains Demand for livestock products is projected to grow 1.3 percent per year until 2050 driven by global population growth and increasing wealth and urbanization This projected growth places significant pressure on the

livestock sector to perform in a more sustainable way Currently many different methods are used to assess the environmental impacts and performance of livestock products This causes confusion and makes it difficult to compare results and set priorities for continuing improvement The intention of this document is to provide an overview assessment of existing studies and associated methods that have used life cycle assessment for the evaluation of pig supply chains *Ecology, Planning, and Management of Urban Forests* Margaret M. Carreiro,Yong-Chang Song,Jianguo Wu,2007-10-31 It has been increasingly recognized that trees and vegetation in urban areas provide a number of ecological services beyond beautifying cities The purpose of urban forestry is to use trees and natural habitat patches to ameliorate negative environmental impacts of cities and to contribute to the creation of more livable ecological sustainable co cities Ecology Planning and Management of Urban Forests takes an international approach to sharing knowledge about the management of urban forests that has been learned through studies in many different regions This allows the reader to evaluate methods and management that are appropriate for particular geographic environmental and socio political contexts Urban forests are also approached on regional and landscape scales to encompass more natural environments in and around cities rather than within arbitrary municipal boundaries **Proceedings of the 6th International Conference on Construction, Architecture and Technosphere Safety** Andrey A. Radionov,Dmitrii V. Ulrikh,Svetlana S. Timofeeva,Vladimir N. Alekhin,Vadim R. Gasiyarov,2023-03-02 This book highlights recent findings in civil and environmental engineering and urban planning and provides an overview of the state of the art in these fields mainly in Russia and Eastern Europe A broad range of topics and issues in modern engineering are discussed including construction buildings and structures advanced materials innovative technology methods and techniques in civil engineering heating gas supply water supply and sewerage foundation engineering BIM structural reliability durability and monitoring special and unique structures construction bridge tunnel road railway engineering design and construction of hydraulic structures concrete engineering urban regeneration and sustainable development urban transport system engineering structure safety and disaster prevention water resources engineering water and wastewater treatment recycling and reuse of wastewater etc The volume gathers selected papers from the 6th International Conference on Construction Architecture and Technosphere Safety ICCATS held in Sochi Russia in September 2022 The authors are experts in various fields of engineering and all papers have been carefully reviewed **Frontiers in Civil and Hydraulic Engineering, Volume 1** Mohamed A. Ismail,Hazem Samih Mohamed,2023-03-23 Frontiers in Civil and Hydraulic Engineering focuses on the research of architecture and hydraulic engineering in civil engineering The proceedings feature the most cutting edge research directions and achievements related to civil and hydraulic engineering Subjects in the proceedings including Engineering Structure Intelligent Building Structural Seismic Resistance Monitoring and Testing Hydraulic Engineering Engineering Facility The works of this proceedings can promote development of civil and hydraulic engineering resource sharing flexibility and high efficiency Thereby promote scientific information interchange between

scholars from the top universities research centers and high tech enterprises working all around the world The 30th SIAR International Congress of Automotive and Transport Engineering Ilie Dumitru,Dinu Covaciu,Laurențiu Racila,Adrian Rosca,2019-10-15 This proceedings book includes papers that cover the latest developments in automotive vehicles and environment advanced transport systems and road traffic heavy and special vehicles new materials manufacturing technologies and logistics and advanced engineering methods Authors of the papers selected for this book are experts from research industry and universities coming from different countries The overall objectives of the presentations are to respond to the major challenges faced by the automotive industry and to propose potential solutions to problems related to automotive technology transportation and environment and road safety The congress is organized by SIAR Society of Automotive Engineers from Romania in cooperation with SAE International The purpose is to gather members from academia industry and government and present their possibilities for investigations and research in order to establish new future collaborations in the automotive engineering and transport domain This proceedings book is just a part of the outcomes of the congress The results presented in this proceedings book benefit researchers from academia and research institutes industry specialists Ph D students and students in Automotive and Transport Engineering programs **Noah's Ravens** James O. Farlow,2018-10-08 How can the tracks of dinosaurs best be interpreted and used to reconstruct them In many Mesozoic sedimentary rock formations fossilized footprints of bipedal three toed tridactyl dinosaurs are preserved in huge numbers often with few or no skeletons Such tracks sometimes provide the only clues to the former presence of dinosaurs but their interpretation can be challenging How different in size and shape can footprints be and yet have been made by the same kind of dinosaur How similar can they be and yet have been made by different kinds of dinosaurs To what extent can tridactyl dinosaur footprints serve as proxies for the biodiversity of their makers Profusely illustrated and meticulously researched Noah s Ravens quantitatively explores a variety of approaches to interpreting the tracks carefully examining within species and across species variability in foot and footprint shape in nonavian dinosaurs and their close living relatives The results help decipher one of the world s most important assemblages of fossil dinosaur tracks found in sedimentary rocks deposited in ancient rift valleys of eastern North America Those often beautifully preserved tracks were among the first studied by paleontologists and they were initially interpreted as having been made by big birds one of which was jokingly identified as Noah s legendary raven Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1975 *Ecological Footprint of the Modern Economy and the Ways to Reduce It* Bruno S. Sergi,Elena G. Popkova,Anna A. Ostrovskaya,Alexander A. Chursin,Yulia V. Ragulina,2024-02-26 This book is devoted to the systems rethinking of the role of the leading digital technologies and circular innovations to reduce the environmental footprint of the modern economy The target audience of this book consists of scientists who explore environmental economics energy economics and sustainable development In this book they will find a consistent take on the impact of the economy on the

environment from the perspective of a new scientific concept the environmental footprint of the economy described through the lens of the UN SDGs This book is also useful for public agencies of energy and environmental economics and environmentally responsible enterprises In this book they will find applied recommendations on improving the efficiency of the use of high technologies and responsible innovations to reduce the environmental footprint of the modern economy The book provides numerous real world examples case studies and recommendations on unlocking the environmental potential of high technologies Big Data Ubiquitous Computing UC Robotics Artificial Intelligence AI and the Internet of Things IoT and responsible innovations ESG investments environmental taxation green jobs which allow reaching net zero emission and building a carbon neutral circular economy The interest in this book is also attributable to the fact that it takes into account the specifics of developed and less developed countries The book puts more focus on the real life and case experience of Central Asia and the Eurasian Economic Union EAEU Dictionary of Contemporary Chinese Economics Hong

Yinxing,2025-05-26 This Dictionary provides the theoretical summary and conceptual framework around the milestones obtained through Chinese reform and development and highlights the research achievements of Chinese economics over the past 40 years It also presents Chinese economics to the world featuring the Belt and Road Initiative and the Chinese theory and Chinese system to be known and shared internationally with a Chinese intellectual foundation It sets out to frame the theoretical achievements of extraction and summary of practice experience from Chinese reform and development The choice of entries in the Dictionary seeks to embody the very Chinese characteristics of economics and the combination of theory and practice is illuminated Furthermore the dictionary explores examples of scientific achievements that traditional economics has brought forward and how they fit and unify within both a Chinese as well as an international context

Scientific and Technical Aerospace Reports ,1982 *Carbon Footprints as Cultural-Ecological Metaphors* Anita Girvan,2017-10-10 Through an examination of carbon footprint metaphors this books demonstrates the ways in which climate change and other ecological issues are culturally and materially constituted through metaphor The carbon footprint metaphor has achieved a ubiquitous presence in Anglo North American public contexts since the turn of the millennium yet this metaphor remains under examined as a crucial mediator of political responses to the urgent crisis of climate change Existing books and articles on the carbon footprint typically treat this metaphor as a quantifying metric with little attention to the shifting mediations and practices of the carbon footprint as a metaphor This gap echoes a wider gap in understanding metaphors as key figures in mediating more than human relations at a time when such relations profoundly matter As a timely intervention this book addresses this gap by using insights from environmental humanities and political ecology to discuss carbon footprint metaphors in popular and public texts This book will be of great interest to researchers and students of environmental humanities political ecology environmental communication and metaphor studies *Dinosaurs and Other Extinct Saurians* Richard Moody,2010 The discovery of dinosaurs and other large extinct saurians a term under which the

Victorians commonly lumped ichthyosaurs plesiosaurs pterosaurs and their kin makes exciting reading and has caught the attention of palaeontologists historians of science and the general public alike The papers in this collection go beyond the familiar tales about famous fossil hunters and focus on relatively little known episodes in the discovery and interpretation from both a scientific and an artistic point of view of dinosaurs and other inhabitants of the Mesozoic world They cover a long time span from the beginnings of modern scientific palaeontology in the 1700s to the present and deal with many parts of the world from the Yorkshire coast to Central India from Bavaria to the Sahara The characters in these stories include professional palaeontologists and geologists some of them well known others quite obscure explorers amateur fossil collectors and artists linked together by their interest in Mesozoic creatures

Wildlife Forensic Investigation John E. Cooper, Margaret E. Cooper, 2013-05-23 Wildlife forensics is the application of forensic science to the conservation and protection of non domesticated animals both in the wild and in captivity Providing an in depth introduction to this rapidly evolving field Wildlife Forensic Investigation Principles and Practice also chronicles aspects of the history of management conservation and environmental protection with an emphasis on their global importance in the twenty first century The book examines the crucial role of wildlife forensic investigation with regard to live animals dead animals and samples and covers national regional and international legislation While the text particularly focuses on forensic science as it relates to wild animals it also includes mention of plants and habitats because of their relevance to conservation The book discusses animal welfare as well as the damage that can be inflicted on humans and property by wildlife Offering access to sound evidence based on good science and obtained using the best available practices the book is enhanced by case studies from experts who describe some of their own work This resource is essential for those involved in a range of endeavours including investigating wildlife crime identifying animal remains ascertaining the circumstances of death of wild species and other legal proceedings and activities concerning wildlife The forensic skills described in this book can be applied to a wide range of activities not necessarily involving the legal process including environmental impact assessments insurance claims governmental and other enquiries checking of trading standards and the inspection of for instance pet shops animal boarding establishments and zoological collections The authors point out that one of the most important requirements of those persons involved in wildlife forensic work is to retain an open mind Such personnel should also be conscious of new developments and evolving techniques and be able to anticipate situations where their investigative and scientific skills might be used to advantage so called horizon scanning Examples of these are given

Advances in Engineering Project, Production, and Technology James Olabode Bamidele Rotimi, Wajiha Mohsin Shahzad, Monty Sutrisna, Ravindu Kahandawa, 2024-08-17 This book contains a selection of papers from the 13th International Conference on Engineering Project and Production Management EPPM held in Auckland New Zealand from 29 November to 1 December 2023 The conference was organized by the School of Built Environment Massey University in collaboration with the EPPM Association The book comprises of quality assured

theoretical discussions data analysis case studies and industry practices presented by global researchers and practitioners
The conference theme was Creating capacity and capability re energizing supply chain for sustainable management of
projects and productions in engineering and this volume focuses on papers related to engineering project production and
technology The papers are comprehensive multidisciplinary and advanced and will be of interest to researchers and
practitioners from various industries seeking the latest updates on the fields of engineering project and production
