30 Graphic Organizers for Reading (Graphic Organizers to Improve Literacy Skills) , Getting to the Core of Literacy for History/Social Studies, Science, and Technical Subjects, Grades 6–12 Vicky Giouroukakis, Maureen Connolly, 2013-05-14 Literacy is not just for English teachers anymore. The new Common Core English Language Arts Standards aren't just for English teachers. Fluent reading and writing are critically important to the study of history, social studies, science, and technical subjects too. What's more, the progress your students make is directly tied to their ability to process information they read and to express their ideas in writing. So how do you make literacy a focus of your teaching without taking time away from essential content? This practical resource, packed with teacher-tested CCSS-based sample lessons, shows you how using the Backward Design approach to set and meet your goals. Each lesson template includes the teaching strategies you'll utilize, ways to incorporate technology and media, variations for differentiation and interdisciplinary connections, links to the work of major educational theorists. Following these models, you'll set the CCSS in your sights and develop lessons that both meet standards and fit your classroom. Before you know it, you'll be infusing reading and writing across your curriculum in purposeful and meaningful ways.

Content Area Lessons Using Graphic Organizers, Grade 6 Debra J. Housel, 2008 Teaching lessons that meet the standards for your grade level in reading, writing, science, geography, history, and math.

Common Core Standards for High School English Language Arts Susan Ryan, Dana Frazee, 2012-10-18 Smart implementation of the Common Core State Standards requires both an overall understanding of the standards and a grasp of their implications for planning teaching and learning. This Quick Start Guide provides a succinct all-in-one look at the content, structure, terminology, and emphases of the Common Core standards for English language arts and literacy at the high school level. The meaning of the individual standards within the four ELA strands: Reading, Writing, Speaking and Listening, and Language. How the standards connect across strands, grade bands, and content areas to help students develop the communication and analytical skills essential for college and career readiness. The areas of the ELA standards that represent the most significant changes to business as usual. Here, teachers and school leaders will find information they need to begin adapting their practices to ensure all students master the new and challenging material the standards present. A practical lesson planning process to use with the Common Core based on Classroom Instruction That Works 2nd Ed is included along with three sample lessons.
