

Human Body

SCAVENGER HUNT

The image displays a central human figure with a red heart, surrounded by several informational cards about human body systems. The cards are arranged in a collage-like fashion, with some overlapping. The cards include:

- Digestive system:** breaks down nutrients in the stomach and intestines, then absorbed into the body.
- Urinary system:** including the kidneys and bladder, removes waste from the blood and regulates water and electrolyte balance.
- Reproductive system:** enables reproduction. In males, it involves organs such as testes. In females, it involves organs such as ovaries.
- Nervous system:** includes the brain, spinal cord, and nerves. It controls voluntary and involuntary actions, such as walking and breathing.
- Circulatory system:** transports blood throughout the body.
- Respiratory system:** takes in oxygen and removes carbon dioxide.
- Muscular system:** provides movement and support.
- Skeletal system:** provides structure and support.

Each card also includes a "CODE WORD" section with a question related to the system. For example, the Digestive system card asks: "CODE WORD: What system breaks down food?" The Urinary system card asks: "CODE WORD: What system removes waste from the blood?" The Reproductive system card asks: "CODE WORD: What system enables reproduction?" The Nervous system card asks: "CODE WORD: What system controls the body?" The Circulatory system card asks: "CODE WORD: What system transports blood?" The Respiratory system card asks: "CODE WORD: What system takes in oxygen?" The Muscular system card asks: "CODE WORD: What system provides movement?" The Skeletal system card asks: "CODE WORD: What system provides structure?"

The Quest logo is visible in the bottom right corner.

Anatomy Scavenger Hunt
