The Unity of African Ancient History Felix Chami, 2006 In one the first studies to gather data from as many related disciplines as possible linguistics and etymology anthropology and rock art and drawing on new archaeological findings and re readings of historical documents the author traces the contours of ancient cultural and trade links between the various peoples and polities of ancient Africa The aim is to discern patterns of peopling and history of the continent and rediscover unknown cultural systems and dynamics of ancient sub Saharan Africa By demonstrating how Africa people developed culturally exchanged knowledge and migrated the study challenges denials of early African cultural sophistication setting an important agenda for future research directions **Ancient Kingdoms of West Africa** Dierk Lange, 2004 Sub Saharan African history does not feature in the world history of the classical period because it continues to be dominated by an emphasis on local paradigms Using hitherto unexplored sources this study places parts of West and also East Africa on the map for the ancient world It shows in particular that the main clan and state structures of several West African kingdoms are based on the same dualistic pattern as that of the Canaanite Israelite and hence also Phoenician societies Supported by written records oral traditions and cult dramatic performances these similarities suggest the existence of early trans Saharan contacts reaching back to the pre Roman period The Phoenician slave trade appears to have been the single most important factor explaining the transfer of these organizational forms from North Africa to the sub Saharan region where they are particularly prominent in the Hausa and Yoruba societies Similar social institutions were transmitted from the Semitic world to the Horn of Africa as a result of the ancient myrrh and frankincense trade Their subsequent contextualization and local adaptation led to the rise of a number of great kingdoms in West and East Africa Some of these polities grew so powerful that they conquered and controlled the successor states of their former metropolitan suzerains Dealing with regional history as

well the volume presents the development of the West African empires of Ghana Mali and Songhay from the new perspective of ethnogenesis There are numerous original maps charts and photographs to illustrate the text Dierk Lange is Professor of African History at the University of Bayreuth in Germany He presents here the results of more than thirty years of research devoted to the history of Africa and explains his more recent focus on relations with Phoenician North Africa Before his appointment in Bayreuth he studied African and Islamic history as well as anthropology in Paris worked on Arabic texts for four years in Cairo and taught African and Islamic history for five years at the University of Niamey He crossed the Sahara several times and undertook more than fifteen research trips to Nigeria Niger and Chad His publications in three languages include two books numerous articles in learned journals and two contributions to the UNESCO history of Africa He is unique in comparing African cultural forms with those of the ancient Near East

Potts,Ethan Harkness,Jason Neelis,Roderick J. McIntosh,2020 **Ancient Africa** Christopher Ehret,2024-11-05 A panoramic narrative that places ancient Africa on the stage of world history This book brings together archaeological and linguistic evidence to provide a sweeping global history of ancient Africa tracing how the continent played an important role in the technological agricultural and economic transitions of world civilization Christopher Ehret takes readers from the close of the last Ice Age some ten thousand years ago when a changing climate allowed for the transition from hunting and gathering to the cultivation of crops and raising of livestock to the rise of kingdoms and empires in the first centuries of the common era Ehret takes up the problem of how we discuss Africa in the context of global history combining results of multiple disciplines He sheds light on the rich history of technological innovation by African societies from advances in ceramics to cotton weaving and iron smelting highlighting the important contributions of women as inventors and innovators He shows how Africa helped to usher in an age of agricultural exchange exporting essential crops as well as new agricultural methods into other regions and how African traders and merchants led a commercial revolution spanning diverse regions and cultures Ehret lays out the deeply African foundations of ancient Egyptian culture beliefs and institutions and discusses early Christianity in Africa A monumental achievement by one of today's eminent scholars Ancient Africa offers vital new perspectives on our shared past explaining why we need to reshape our historical frameworks for understanding the ancient world as a whole **Encyclopedia of African History** Kevin

Shillington,2005 Offers more than one thousand entries covering all aspects of African history civilization and culture

Encyclopedia of African History 3-Volume Set Kevin Shillington,2013-07-04 Covering the entire continent from Morocco Libya and Egypt in the north to the Cape of Good Hope in the south and the surrounding islands from Cape Verde in the west to Madagascar Mauritius and Seychelles in the east the Encyclopedia of African History is a new A Z reference resource on the history of the entire African continent With entries ranging from the earliest evolution of human beings in Africa to the beginning of the twenty first century this comprehensive three volume Encyclopedia is the first reference of this scale and scope Also includes 99 maps The Ancient Kingdoms of Africa Charles River Charles River Editors,2018-03-29 Includes pictures Includes ancient accounts Includes online resources and a bibliography for further reading Africa may have given rise to the first human beings and Egypt probably gave rise to the first great civilizations which continue to fascinate modern societies across the globe nearly 5 000 years later From the Library and Lighthouse of Alexandria to the Great Pyramid at Giza the Ancient Egyptians produced several wonders of the world revolutionized architecture and construction created some of the world s first systems of mathematics and medicine and established language and art that spread across the known world With world famous leaders like King Tut and Cleopatra it s no wonder that today s world has so many Egyptologists Perhaps the most intriguing aspect of ancient Egyptian civilization was its inception from the ground up as the ancient Egyptians had no prior civilization which they could use as a template In fact ancient Egypt itself became a template for the civilizations that followed The Greeks and the Romans were so impressed with Egyptian culture that they often attributed many attributes of their own culture usually erroneously to the Egyptians With that said some minor elements of ancient Egyptian culture were indeed passed on to later civilizations Egyptian statuary appears to have had an initial influence on the Greek version and the ancient Egyptian language continued long after the pharaonic period in the form of the Coptic language By the 4th century BCE it appeared as though ancient Egypt was in its final death throes It had long ceased to be an influential kingdom in the Near East and Mediterranean regions and it had been ruled over by a succession of foreign peoples including Libyans Nubians Assyrians and Persians But just when Egypt seemed was doomed to pass forever into obscurity it was reinvigorated by outsiders most notably Alexander the Great While in the process of campaigning to destroy the Achaemenid Persian Empire and conquer the world in 331 BCE he made a pit stop in Egypt that forever changed the course of Egyptian history Although his understanding of ancient Egyptian chronology and religion was minimal Alexander was intrigued by ancient pharaonic culture knowing as the 5th century BCE Greek historian Herodotus once wrote Egypt is the gift of the Nile As a result Alexander endeavored to incorporate the land of the pharaohs into Hellenic Civilization The three primary enemies of the Egyptians were the Libyans who occupied the Western Desert and its oases the so called Asiatics who lived in the Levant and finally the Nubians to Egypt s south Among the three peoples the Nubians were the most Egyptianized and at times were integral to the development of Egyptian history Truly the Nubians were the greatest of all

sub Saharan peoples in pre modern times and deserve to be studied in their own right apart from ancient Egyptian history In 1515 a Portuguese missionary explorer by the name of Father Francisco Ivaes entered Ethiopia and took note in the interior of the remnants of a civilization of obviously Christian origin with living adherents conforming to a branch of the faith clearly founded in antiquity Could this be the Kingdom of Prester John Father Ivaes was intrigued but he was wary of too fanciful a construction and he speculated more practically on the legend of King Solomon the Queen of Sheba and other such muses As for the city at the center of the civilization he called it Aquasumo Thus the existence of the Kingdom of Aksum came to the notice of Christian Europe after almost 1 000 years of isolation The Ancient Kingdoms of Africa The History and Legacy of the African Continent s Most Prominent Kingdoms in Antiquity chronicles the tumultuous rise and fall of kingdoms like Egypt Nubia Aksum and more *Ancient African Metallurgy* Michael S. Bisson, Terry S. Childs, Philip De Barros, Augustin F.C. Holl, Joseph O. Vogel, 2000-08-16 Gold Copper Iron Metal working in Africa has been the subject of both public lore and extensive archaeological investigation Here four of the leading contemporary researchers on this topic attempt to provide a complete synthesis of current debates and understandings Where how and when was metal first introduced to the continent How were iron and copper tools implements and objects used in everyday life in trade in political and cultural contexts What role did metal objects play in the ideological systems of precolonial African peoples Substantive chapters address the origins of metal working and the technology and the various uses and meanings of copper and iron An ethnoarchaeological account in the words of a contemporary iron worker enriches the archaeological explanations This book provides a comprehensive timely summary of our current knowledge **General History of Africa** International Scientific Committee for the drafting of a General History of Africa, 1988-12-31 One of UNESCO s most important publishing projects in the last thirty years the General History of Africa marks a major breakthrough in the recognition of Africa s cultural heritage Offering an internal perspective of Africa the eight volume work provides a comprehensive approach to the history of ideas civilizations societies and institutions of African history The volumes also discuss historical relationships among Africans as well as multilateral interactions with other cultures and continents THE CONSPIRACY AGAINST AFRICA Charles Akujieze, 2023-09-23 The Conspiracy Against Africa unveils a resonating truth that echoes across borders With insightful precision the book navigates the intricate reasons behind Africa s ongoing economic challenges and subjugation Tracing the pages of history the narrative illuminates the complex interplay between the West and Africa Here Africa s path to prosperity is shackled by the West s unquenchable appetite for its resources This chokehold on Africa s raw materials keeps the global equilibrium but at what expense Unraveling layers of inefficiency ethical cracks and integrity gaps the book dissects Africa s relationship with the Western world It exposes vested interests that hold back progress with unyielding tenacity Yet within this stark analysis a call to arms resounds a rallying cry brimming with urgency and optimism inviting every African to reclaim their essence and dreams This stands as a pivotal turning point urging Africans to cast aside shadows that bind them seizing the reins of fate

and forging a destiny that defies exploitation The Conspiracy Against Africa is more than a book it s an awakening an assertion of empowerment amidst suppression It lays bare truths long obscured inviting you on this narrative journey to reclaim Africa s story and usher in an era of empowerment justice and self determination **If You Want to Learn Early African History Start Here** Robin Walker,2015-01-28 What they had in common was that they were unsure of where to begin their reading and study but they still wanted to find out more information This book was written to simplify that journey As the author of When We Ruled a 700 plus page book on African history I could also see the need to produce a smaller book that condenses and simplifies the information I want to make the data as accessible as possible hence this book This book is in two parts The first part is called If you want to learn Early African History START HERE The second part is called 50 Questions and Answers on the History of Black People The first part of the book If you want to learn Early African History START HERE is a general introduction to Classical African history covering the most important ancient and medieval empires It began life as two separate lectures that I gave to introduce African history One of the lectures was called When We Ruled Thousands of Years of a Visible African Heritage The second lecture was called The Lost Civilisations of Central Africa To write this section of the book I combined these two lectures into one narrative In the final part of this section I suggest other sources that a student could read to advance their knowledge even more The second part of the book 50 Questions and Answers on the History of Black People began life when a colleague approached me to give him an extended interview on Black or African history The colleague posed 50 varied questions to me to which I gave extended answers He asked me about Nile Valley history Ancient Kingdoms and Empires The Slave Trade earlier Black historians and their writings etcetera I hope that the 50 questions answer most of the questions that people raise concerning Black or African history Robin Walker *Streams of Civilization* Christian Liberty Press,Mary Stanton,Albert Hyma,1999-05-03 This world history text provides a comprehensive overview of ancient history from Creation through the 1620s from a Christian perspective Extensive vocabulary questions and suggested projects are listed throughout the text The text is beautifully illustrated and contains numerous high quality maps in two color Grade 9
