Ochumbo, 2017-05-08 The disproportional loss of individuals to HIV AIDS in their most productive years raises concerns over the welfare of surviving members of affected families and communities One consequence of the rapid increase in adult mortality is the rise in the proportion of children who are orphaned Sub Saharan Africa accounts for about 90 percent of these Mainly due to the staggering toll of HIV AIDS research effort has focused on treatment and prevention Children have received attention primarily in relation to mother to child transmission and paediatric AIDS These issues are important and compelling but fail to capture the whole story the unprecedented surge in the number of children made vulnerable by HIV AIDS In this book we reflect on the plight of children classified as vulnerable review interventions implemented to improve their welfare and grapple with the concept of vulnerability as it relates to human rights and the African child *Social Protection for Africa's Children* Sudhanshu Handa, Stephen Devereux, Douglas Webb, 2010-10-04 Social protection is an

increasingly important part of the social policy dialogue in Africa and yet because of its relatively new place in a rapidly evolving agenda evidence on critical design choices such as targeting and on impacts of social protection interventions is mostly limited to case studies or small unrepresentative surveys This impressive collection makes a major contribution to building the evidence base drawing on rigorous analysis of social protection programmes in several African countries as well as original research and thinking on key topical issues in the social protection discourse Social Protection for Africa's Children is divided into four parts The first presents economic and human rights based arguments for social protection as an integral part of the social policy menu in Africa This is followed by a part on targeting which highlights some of the key policy trade offs faced when deciding between alternative target groups The third part presents rigorous quantitative evidence on the impact of social cash transfers on children from programmes in South Africa Malawi and Ethiopia and the final part addresses a set of issues related to social justice and human rights This book significantly advances existing knowledge about social protection for children in Africa both conceptually and empirically It makes a strong case for social protection interventions that address the short term amelioration and long term structural needs of children and shows that programming in this sector for children is both feasible and achievable Policy makers and practitioners in this sector will have in this book the theoretical and empirical evidence necessary to advance social protection for Africa's children in the decades to come Furthermore this book should be an essential resource to postgraduates and students focussing on development economics in Africa

Structural Dynamics of HIV Deanna Kerrigan, Clare Barrington, 2017-09-30 This book examines the structural dynamics of HIV among populations at heightened vulnerability to infection as the result of stigma discrimination and marginalization It first examines how the socio structural context shapes HIV risk and how affected populations and national governments and programs have responded to these structural constraints Chapters focus on structural determinants of HIV risk among transgender women in Guatemala migrant workers in Mexico Nigeria and Vietnam and people who inject drugs in Tanzania Next the book examines resilience and community empowerment and mobilization among key populations such as female sex workers in the Dominican Republic and India and young women and girls in Botswana Malawi and Mozambique A third set of chapters explores how national responses to HIV have addressed the role of structural factors in diverse political geographic and epidemic settings including Brazil South Africa Ukraine and the USA Ultimately effective and sustainable responses to HIV among marginalized groups must be grounded in an in depth understanding of the factors that create vulnerability and risk and impede access to services Throughout this book brings together a rigorous social science research perspective with a strong rights based approach to inform improvements in HIV programs and policies It offers new insights into how to better address HIV and the health and human rights of historically excluded communities and groups

introduction to ARUNA 2007 2008 was titled Towards a New Global Protocol on Climate Change in which he argued that solving the climate change problem will demand four steps scientific consensus public awareness the development of alternative technologies and a global framework for action He dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the Kyoto Protocol Professor Sachs argued that climate change crises can only be solved through the goals leadership and treaty mechanisms of the UN Edward C Luck ARUNA 2006 2007 edition Professor Edward C Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy From 1984 to 1994 he served as President and Chief Executive Officer of the UN Association of the USA UNA USA Professor Luck s introduction to ARUNA 2006 2007 covered The responsible sovereign and the responsibility to protect in which he addressed the scope and content of what was agreed at the 2005 World Summit the implications of the responsibility to protect RtoP for notions of state sovereignty and some of the conceptual architectural and policy challenges then facing UN Secretary General Ban Ki moon s commitment to operationalizing the responsibility to protect and translating it from words to deeds Louise Frechette ARUNA 2005 2006 edition Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance Innovation Waterloo Ontario Until March 2006 she was the first Deputy Secretary General of the UN before that she was Permanent Representative of Canada to the UN Ms Frechette s introduction to ARUNA 2005 2006 covered United Nations reform an unfinished story As the first Deputy Secretary General of the UN Ms Frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the UN and why She examined if the UN is functioning better than it was 15 years ago why reform is so difficult to achieve and what the future holds for the institutions Rubens Ricupero ARUNA 2004 2005 edition Mr Rubens Ricupero is Dean of the Fundacno Armando Alvares Penteado FAAP Sao Paulo and was formerly Secretary General of UN Conference on Trade and Development UNCTAD and Minister of Finance of Brazil Mr Ricupero s introduction to ARUNA 2004 2005 covered The difficulty of building consensus in an age of extremes and examined the mysteries of the negotiating process leading to the outcome of the 2005 World Summit Rather than a Grand Bargain of a comprehensive UN reform in the areas of development security and human rights it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity Mr Ricupero concludes that contrary to the daring proclamation at the outset by the Secretary General the conditions indispensable to succeed were not in place Indeed it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding
