[Russian Genre Painting in the Nineteenth Century](#) Rosalind Polly Blakesley, 2000 This book addresses the little studied area of Russian genre painting in the first three quarters of the nineteenth century Rosalind Gray begins by examining artistic patronage and published texts which engaged with the visual arts in order to illustrate the context in which Russian artists were working Five major painters Venetsianov Bryullov Ivanov Fedotov and Perov are then discussed in detail Dr Gray identifies the vital contribution which these artists made to Russian intellectual life as genre painting was appropriated as a medium in the dissemination of popular values and social change At the same time the relationship between Russian and European art is explored The book demonstrates that far from being a self contained movement Russian genre painting instead engaged in a fluid and complex dialogue with the art of the West

Artists and Society in Germany, 1850-1914 Robin Lenman, 1997 In times past everyday business might mean making a trip to the pawnbroker giving a loan to a trusted friend or selling off a coat all to make ends meet Both women and men engaged in this daily budgeting but women's roles were especially important in achieving some level of comfort and avoiding penury In some communities the daily practices in

place in the seventeenth century persisted into the twentieth whilst other groups adopted new ways such as using numbers to chart domestic affairs and turning to the savings banks that appeared in the nineteenth century These strategies promised respectability and greater access to new consumer goods better clothes and finer furnishings accompanied a newly disciplined behaviour Therefore in the material world of the past and in the changing habits of earlier generations lie crucial turning points This book explores these previously under researched patterns and practices that gave shape to modern consumer society

The Evolution of Taste in American Collecting René Brimo, 2016-12-13 The Evolution of Taste in American Collecting is a new critical translation of Ren Brimo s classic study of eighteenth and nineteenth century patronage and art collecting in the United States Originally published in French in 1938 Brimo s foundational text is a detailed examination of collecting in America from colonial times to the end of World War I when American collectors came to dominate the European art market This work helped shape the then fledgling field of American art history by explaining larger cultural transformations as manifested in the collecting habits of American elites It remains the most substantive account of the history of collecting in the United States In his introduction Kenneth Haltman provides a biographical study of the author and his social and intellectual milieu in France and the United States He also explores how Brimo s work formed a turning point and initiated a new area of academic study the history of art collecting Making accessible a text that has until now only been available in French Haltman s elegant translation of The Evolution of Taste in American Collecting sheds new critical light on the essential work of this extraordinary but overlooked scholar
