completing a picture of the whole child from family life to social emotional and neuropsychological functioning She leads the reader through each step of a comprehensive assessment touching on the major data sources necessary for a full understanding of the child within different environments Throughout the book Dr Lidz advocates best assessment practices that reflect the interests of children and families Features useful information on Conducting initial interviews and observations for setting the course of the assessment Using standardized and nonstandardized approaches to generate both qualitative and quantitative data Viewing children and families within their cultural contexts Integrating assessment data sources to generate meaningful recommendations and readable reports Plus Includes unique chapters on play observation of parent child and teacher child interactions and dynamic assessment Early Childhood Assessment is a valuable tool for professionals and students who are concerned about the richness and complexity of children's development within their families and communities

Early Childhood Education Petr G. Grotewell, Yanus R. Burton, 2008 This book focuses on early childhood education which spans the human life from birth to age 8 Infants and toddlers experience life more holistically than any other age group Social emotional cognitive language and physical lessons are not learned separately by very young children Adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience not just that part of the experience to which the adult gives attention Although early childhood education does not have to occur in the absence of the parent or primary caregiver this term is sometimes used to denote education by someone other than these the parent or primary caregiver Both research in the field and early childhood educators view the parents as an integral part of the early childhood education process Early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent Other terms that is often used interchangeably with early childhood education are early childhood learning early care and early education Much of the first two years of life are spent in the creation of a child's first sense of self or the building of a first identity Because this is a crucial part of children's makeup how they first see themselves how they think they should function how they expect others to function in relation to them early care must ensure that in addition to carefully selected and trained caregivers links with family home culture and home language are a central part of program policy If care becomes a substitute for rather than a support of family children may develop a less than positive sense of who they are and where they come from because of their child care experience
