Trans Rogers Brubaker, 2018-05-29 How the transgender experience opens up new possibilities for thinking about gender and race In the summer of 2015 shortly after Caitlyn Jenner came out as transgender the NAACP official and political activist Rachel Dolezal was outed by her parents as white touching off a heated debate in the media about the fluidity of gender and race If Jenner could legitimately identify as a woman could Dolezal legitimately identify as black Taking the controversial pairing of transgender and transracial as his starting point Rogers Brubaker shows how gender and race long understood as stable inborn and unambiguous have in the past few decades opened up in different ways and to different degrees to the forces of change and choice Transgender identities have moved from the margins to the mainstream with dizzying speed and ethnoracial boundaries have blurred Paradoxically while sex has a much deeper biological basis than race choosing or changing one s sex or gender is more widely accepted than choosing or changing one s race Yet while few accepted Dolezal s claim to be black racial identities are becoming more fluid as ancestry increasingly understood as mixed loses its authority over identity and as race and ethnicity like gender come to be understood as something we do not just something we have By rethinking race and ethnicity through the multifaceted lens of the transgender experience encompassing not just a movement from one category to another but positions between and beyond existing categories Brubaker underscores the malleability contingency and arbitrariness of racial categories At a critical time when gender and race are being reimagined and reconstructed *Trans* explores fruitful new paths for thinking about identity

Abolishing White Masculinity from Mark Twain to Hip-hop Stephany Rose, 2014-03-25 *Abolishing White Masculinity from Mark Twain to Hip-hop* examines white American male literature for its social commentary on the construction of whiteness in the United States Whiteness has always been a contested racial identity in the U S one in a state of construction and reconstruction throughout critical cultural and historical moments This text examines how white American male writers have grappled with understanding themselves and their audiences as white beings *Abolishing White Masculinity from Mark Twain to Hip-hop* specifically brings a critical whiteness approach to American literary criticism and strengthens the growing interdisciplinary field of critical whiteness studies in the humanities Critical whiteness studies shifts the attention from solely examining people and perspectives of color in race discourse to addressing whiteness as an

essential component of race ideology The primary contribution of this perspective is in how whites construct and see whiteness for the larger purpose of exploring the possibilities of how they may come to no longer construct and see themselves through whiteness Understanding this is at the heart of contemporary discussions of post raciality Abolishing White Masculinity from Mark Twain to Hip hop uses the following texts as canonical case studies Puddn head Wilson and Those Extraordinary Twins by Mark Twain The Great Gatsby and The Beautiful and the Damned by F Scott Fitzgerald and Angry Black White Boy and The End of the Jews by Adam Mansbach Each underscores the dialectic of formation deformation and reformation of whiteness at specific socio historical moments based upon anxieties about race possessed by whites and highlighted by white fictionists The selected writers ultimately serve dually as co constructors of whiteness and social critics of their times through their literature

Beyond the White Negro Kimberly Chabot Davis, 2014-07-15 Critics often characterize white consumption of African American culture as a form of theft that echoes the fantasies of 1950s era bohemians or White Negroes who romanticized black culture as anarchic and sexually potent In Beyond the White Negro Kimberly Chabot Davis claims such a view fails to describe the varied politics of racial crossover in the past fifteen years Davis analyzes how white engagement with African American novels film narratives and hip hop can help form anti racist attitudes that may catalyze social change and racial justice Though acknowledging past failures to establish cross racial empathy she focuses on examples that show avenues for future progress and change Her study of ethnographic data from book clubs and college classrooms shows how engagement with African American culture and pedagogical support can lead to the kinds of white self examination that make empathy

possible The result is a groundbreaking text that challenges the trend of focusing on society's failures in achieving cross racial empathy and instead explores possible avenues for change
