Anderson Cooper Report On Guatemalan Adoptions:

From Intercountry Adoption to Global Surrogacy Karen Smith Rotabi, Nicole F. Bromfield, 2016-12-12 Intercountry adoption has undergone a radical decline since 2004 when it reached a peak of approximately 45 000 children adopted globally Its practice had been linked to conflict poverty gender inequality and claims of human trafficking ultimately leading to the establishment of the Hague Convention on Intercountry Adoption HCIA This international private law along with the Convention on the Rights of the Child affirm the best interests of the child as paramount in making decisions on behalf of children and families with obligations specifically oriented to safeguards in adoption practices In 2004 as intercountry adoption peaked and then began a dramatic decline commercial global surrogacy contracts began to take off in India Global surrogacy gained in popularity owing in part to improved assisted reproductive technology methods the ease with which people can make global surrogacy arrangements and same sex couples seeking the option to have their own genetically related children Yet regulation remains an issue so much so that the Hague Conference on Private International Law has undertaken research and assessed the many dilemmas as an expert group considers drafting a new law with some similarities to the HCIA and a strong emphasis on parentage This ground breaking book presents a detailed history and applies policy and human rights issues with an emphasis on the best interests of the child within intercountry adoption and the new conceptions of protection necessary in global surrogacy To meet this end voices of surrogate mothers in the US and India ground discourse as authors consider the human rights concerns and policy implications For both intercountry adoption and global surrogacy the complexity of the social context anchors the discourse inclusive of the intersections of poverty and privilege This examination of the inevitable problems is presented at a time in which the pathways to global surrogacy appear to be shifting as the Supreme Court of India weighs in on the future of the industry there while Thailand Cambodia and other countries have banned the practice all together There is speculation that countries in Africa and possibly Central America appear poised to pick up the multi million dollar industry as the demand for healthy infants continues on *The Child Catchers* Kathryn Joyce, 2013-04-16 When Jessie Hawkins adopted daughter told her she had another mom back in Ethiopia Jessie didn't at first know what to think She'd wanted her adoption to be great story about a child who needed a home and got one and a family led by God to adopt Instead she felt like she'd done something wrong Adoption has long been enmeshed in the politics of reproductive rights pitched as a win win compromise in the never ending abortion debate But as Kathryn Joyce makes clear in *The Child Catchers* adoption has lately become even more entangled in the conservative Christian agenda To tens of millions of evangelicals adoption is a new front in the culture wars a test of pro life bona fides a way for born again Christians to reinvent compassionate conservatism on the global stage and a means to fulfill the Great Commission mandate to evangelize the nations Influential leaders fervently promote a new orphan theology urging followers to adopt en masse with little thought for the families these orphans may already have Conservative evangelicals control much

of that industry through an infrastructure of adoption agencies ministries political lobbying groups and publicly supported crisis pregnancy centers which convince women not just to choose life but to choose adoption Overseas conservative Christians preside over a spiraling boom bust adoption market in countries where people are poor and regulations weak and where hefty adoption fees provide lots of incentive to increase the supply of adoptable children recruiting orphans from intact but vulnerable families The Child Catchers is a shocking exposé of what the adoption industry has become and how it got there told through deep investigative reporting and the heartbreaking stories of individuals who became collateral damage in a market driven by profit and now pulpit command Anyone who seeks to adopt of whatever faith or no faith and however well meaning is affected by the evangelical adoption movement whether they know it or not The movement has shaped the way we think about adoption the language we use to discuss it the places we seek to adopt from and the policies and laws that govern the process In The Child Catchers Kathryn Joyce reveals with great sensitivity and empathy why if we truly care for children we need to see more clearly

Terrified and Defenseless Dan Grant, 2013-05 Terrified and Defenseless is a story about one man's crusade to dish out his own form of vigilante justice But his aim is not at child molesters or rapists or arsonists or someone who has harmed him personally His aim is at those who willingly participate fund or support cruelty towards animals With his new found wealth he has dedicated his life to not only helping those who can't help themselves not only to avenging the torture and murder of animals but to try to make a change He believes that there are good organizations trying to do good things for animals However no matter how many petitions no matter how many peaceful protests no matter how many celebrities cry out for clemency unless one is willing to die for a cause or better yet kill for it nothing will change Fiction writer Robert A Heinlein once said Anyone who clings to the historically untrue and thoroughly immoral doctrine that violence never solves anything I would advise to conjure up the ghosts of Napoleon Bonaparte and the Duke of Wellington and let them debate it The ghost of Hitler would referee Violence naked force has settled more issues in history than has any other factor and the contrary opinion is wishful thinking at its worst Breeds that forget this basic truth have always paid for it with their lives and their freedoms In short if you want to change something you have to be willing to kill for it
