Animals are the Issue Linda S Katz, 2013-10-31 Supply your library with the best collection of resources on animal issues Animals are the Issue Library Resources on Animal Issues is a guide to books journals and Web sites on historic and modern animal treatment Expert librarians and scholars provide helpful resources showing what ideals and practical solutions exist in animal rights and welfare debates With this book students philosophers and politicians can find the best of written and electronic resources about the protection and ethical use of animals by humankind Animals are the Issue stands alone as a source for locating materials on animal protection and welfare This valuable guide will help librarians save time and money in locating diverse areas of information regarding animal consumption and exploitation The authors have noted what they consider to be the most essential resources for library collections This book offers references that discuss the utilization of animals by humans as companions in sports and entertainment in religion in science and education in industry in hunting Animals Are the Issue explores how animals are seen viewed and used by humans With bibliographies annotated lists and short commentaries by the authors on nearly every item you ll be able to supply your patrons with a highly effective animal rights welfare collection The Animal Ethics Reader Susan Jean Armstrong, Richard George Botzler, 2003 The Animal Ethics Reader is the first comprehensive state of the art anthology of readings on this substantial area of study and interest A subject that regularly captures the headlines the book is designed to appeal to anyone interested in tracing the history of the subject as well as providing a powerful insight into the debate as it has developed The recent wealth of material published in this area has not until now been collected in one volume Readings are arranged thematically carefully presenting a balanced representation of the subject as it stands It will be essential reading for students taking a course in the subject as well as being of considerable interest to the general reader Articles are arranged under the following headings Theories of Animal Ethics Animal Capacities Animals for Food Animal Experimentation Genetic Engineering of Animals Ethics and Wildlife Zoos Aquaria and Animals in Entertainment Companion Animals Legal Rights for Animals Readings from leading experts in the field including Peter Singer Mary Midgely and Bernard Rollin are featured as well as selections from Donald Griffin Mark Bekoff Jane Goodall Raymond Frey Barbara Orlans Tom Regan and Baird Callicott There is an emphasis on balancing classic and contemporary readings with a view to presenting debates as they stand at this point in time Each chapter is introduced by the editors and study questions feature at the end The foreword has been written by Bernard Rollin This will be appropriate reading for students taking courses in philosophy ethics zoology animal science psychology veterinary medicine law environmental science and religion **Animals and Ethics - Third Edition** Angus Taylor, 2009-05-27 Can animals be regarded as part of the moral community To what extent if at all do they have moral rights Are we wrong to eat them hunt them or use them for scientific research Can animal liberation be squared with the environmental movement Taylor traces the background of these debates from Aristotle to Darwin and sets out the views of numerous contemporary philosophers

including Peter Singer Tom Regan Mary Anne Warren J Baird Callicott and Martha Nussbaum with ethical theories ranging from utilitarianism to eco feminism The new edition also includes provocative quotations from some of the major writers in the field As the final chapter insists animal ethics is more than just an academic question it is intimately connected both to our understanding of what it means to be human and to pressing current issues such as food shortages environmental degradation and climate change

Animals and Ethics Angus Taylor, 2003-05-12 A previous edition of this book appeared under the title *Magpies Monkeys and Morals* The new edition has been updated throughout Substantial new material has been added to the text including discussions of virtue ethics and Rawlsian contractarianism The bibliography has been significantly enlarged and now includes more than five hundred entries

BOOK JACKET *Animals Matter* Marc Bekoff, 2007-11-13 Nonhuman animals have many of the same feelings we do They get hurt they suffer they are happy and they take care of each other Marc Bekoff a renowned biologist specializing in animal minds and emotions guides readers from high school age up including older adults who want a basic introduction to the topic in looking at scientific research philosophical ideas and humane values that argue for the ethical and compassionate treatment of animals Citing the latest scientific studies and tackling controversies with conviction he zeroes in on the important questions inviting reader participation with thought experiments and ideas for action Among the questions considered Are some species more valuable or more important than others Do some animals feel pain and suffering and not others Do animals feel emotions Should endangered animals be reintroduced to places where they originally lived Should animals be kept in captivity Are there alternatives to using animals for food clothing cosmetic testing and dissection in the science classroom What can we learn by imagining what it feels like to be a dog or a cat or a mouse or an ant What can we do to make a difference in animals quality of life Bekoff urges us not only to understand and protect animals especially those whose help we want for our research and other human needs but to love and respect them as our fellow beings on this planet that we all want to share in peace

Animal Rights John M. Kistler, 2000-06-30 Introductions to each chapter explain the issues as well as the arguments that surround them and a general introduction to the volume thoroughly explains how to use the book Each entry contains the following information author title edition series title location of publisher name of publisher number of pages year of publication and International Standard Book Number Annotations include the most important information available to help the researcher including web sites that contain not only the full text of the book when available but also excerpts and articles or interviews by the author short quotations from the books and short descriptions and summaries of the books All the information provided allows students to locate exactly what they need while encouraging them to explore other issues and differing viewpoints

Pet Politics Susan Hunter, Richard A. Brisbin, 2016-02-15 Although scholars in the disciplines of law psychology philosophy and sociology have published a considerable number of prescriptive normative and theoretical studies of animals in society *Pet Politics* presents the first study of the development of companion animal or pet law and policy in

Canada and the United States by political scientists The authors examine how people and governments classify three species of pets or companion animals cats dogs and horses for various degrees of legal protection They then detail how interest groups shape the agenda for companion animal legislation and regulation and the legislative and administrative formulation of anticruelty kennel licensing horse slaughter feral and roaming cat and breed ban policies Finally they examine the enforcement of these laws and policies by agencies and the courts Using an eclectic mix of original empirical data original case studies and interviews and relying on general theories and research about the policy process and the sociopolitical function of legality the authors illustrate that pet policy is a unique field of political struggle a conflict that originates from differing perspectives about whether pets are property or autonomous beings and clashing norms about the care of animals The result of the political struggle the authors argue is difficulty in the enactment of policies and especially in the implementation and enforcement of laws that might improve the welfare of companion animals

Why Animal Suffering Matters Andrew Linzey, 2013-11-01 How we treat animals arouses strong emotions Many people are repulsed by photographs of cruelty to animals and respond passionately to how we make animals suffer for food commerce and sport But is this as some argue a purely emotional issue Are there really no rational grounds for opposing our current treatment of animals In *Why Animal Suffering Matters* Andrew Linzey argues that when analyzed impartially the rational case for extending moral solicitude to all sentient beings is much stronger than many suppose Indeed Linzey shows that many of the justifications for inflicting animal suffering in fact provide grounds for protecting them Because animals the argument goes lack reason or souls or language harming them is not an offense Linzey suggests that just the opposite is true that the inability of animals to give or withhold consent their inability to represent their interests their moral innocence and their relative defenselessness all compel us not to harm them Andrew Linzey further shows that the arguments in favor of three controversial practices hunting with dogs fur farming and commercial sealing cannot withstand rational critique He considers the economic legal and political issues surrounding each of these practices appealing not to our emotions but to our reason and shows that they are rationally unsupportable and morally repugnant In this superbly argued and deeply engaging book Linzey pioneers a new theory about why animal suffering matters maintaining that sentient animals like infants and young children should be accorded a special moral status

Ethical and Socially Responsible Investment Dominic Broadhurst, Janette Watson, Jane Marshall, 2005-05-15 Dieses neue Nachschlagewerk prsentierte mehr als 500 Informationsquellen zum Thema ethisch und sozial verantwortliche Investitionen Es wendet sich an Informationsspezialisten die im Bereich Wirtschaftsinformationen f r den privaten wie ffentlichen Sektor t tig sind Der Titel ist f r alle die mit Investitionsmanagement betraut sind oder relevante Informationen zu diesem Gebiet ben tigen eine unsch tzbare Quelle aktueller Daten handelt es sich doch um das umfangreichste Nachschlagewerk das bislang zu diesem Thema ver ffentlicht wurde Das Buch deckt alle zentralen Bereiche innerhalb der sozial verantwortlichen Investitionen SRI ab Umwelt

Menschenrechte Arbeitsbedingungen Tierschutz R stungsfragen Lebensmittelsicherheit sexuelle Ausbeutung Gesundheit Sicherheit und Tabak Die Informationsquellen zu jedem dieser Aspekte wurden einzeln ausgesucht gr ndlich hinsichtlich der behandelten Themen analysiert und bewertet sowie mit vollst ndigen Kontaktangaben versehen Das Spektrum der Quellen reicht von B chern und Zeitschriften zu Websites und professionellen Einrichtungen Der konkurrenzlose und benutzerfreundlich gestaltete Titel bietet allen die im Bereich ethisch und sozial verantwortlicher Investitionen t tig sind eine Auswahl der besten einschl gigen Informationsquellen *American Reference Books Annual* Bohdan S. Wynar, 2003 1970 issued in 2 vols v 1 General reference social sciences history economics business v 2 Fine arts humanities science and engineering *People Promoting and People Opposing Animal Rights* John M. Kistler, 2002-11-30 What is the difference between animal rights and animal welfare What inspires people to take on the different causes of non human animals How do people vary in their views on the rights of animals Students will be encouraged to think critically as they discover there are no black and white answers to these and other questions This fascinating collection of profiles is written by and about those who are actively involved in the pro con aspects of the animal rights and animal welfare movements Over 35 individual stories written by those who are on the frontlines fighting for what they believe bring the controversies surrounding animal rights and welfare into sharp focus The same interview questions were asked of each participant Readers will enjoy the personal element of these profiles while discovering the similarities and differences among those involved in these movements An introduction to the volume provides students with the definitions and background information they need to clearly understand the entries that follow and to encourage them to question what they read and to draw their own conclusions *Against the Grain*, 2001 **The SAGE Encyclopedia of Terrorism, Second Edition** Gus Martin, 2011-06-15 Six years after publication of the first edition of the best selling Encyclopedia of Terrorism much has changed on the national security scene Despite the dark promises of Osama bin Laden following the 9 11 attacks the United States has not experienced any major domestic terror incidents Al Qaeda itself is believed to be a severely crippled organization But while U S wars in Afghanistan and Iraq not to mention the arrival of the Obama administration a new balance of power within Congress and an increasingly fragile economic picture have significantly affected the national security picture the threat of economic chaos and massive loss of life due to terror attacks has not abated Indeed in July 2008 analysts pointed out that even a relatively small terrorist organization could present a dire threat with some experts arguing that a biological chemical or even nuclear attack on a major U S city is all but inevitable In this highly charged rapidly shifting environment we are pleased to present the The SAGE Encyclopedia of Terrorism Second Edition a thoroughly updated and expanded edition of the original highly regarded reference work Nearly 100 000 words of new material will be added along with fully updated original entries and expanded coverage New introductory essays will explore the impact of terrorism on economics public health religion and even pop culture Ethical issues such as the role of torture in interrogations

competing notions of security versus liberty and the debates over FISA legislation and Guantanamo Bay will also be covered Two dozen entries on significant recent events such as the London bombings Chechen attacks on Russian interests and the rescue of Ingrid Bettancourt and some 60 additional new entries will restore the work as an up to the minute natural first stop for researchers

Animal Ethics and the Autonomous Animal Self Natalie Thomas, 2016-10-26 This book presents a radical and intuitive argument against the notion that intentional action agency and autonomy are features belonging only to humans Using evidence from research into the minds of non human animals it explores the ways in which animals can be understood as individuals who are aware of themselves and the consequent basis of our moral obligations towards them The first part of this book argues for a conception of agency in animals that admits to degrees among individuals and across species It explores self awareness and its various levels of complexity which depend on an animals other mental capacities The author offers an overview of some established theories in animal ethics including those of Peter Singer Tom Regan Bernard Rollin and Lori Gruen and the ways these theories serve to extend moral consideration towards animals based on various capacities that both animals and humans have in common The book concludes by challenging traditional Kantian notions of rationality and what it means to be an autonomous individual and discussing the problems that still remain in the study of animal ethics
