4. Where does Snowball get his ideas for defending Animal Farm?

Thinking about Stories Samuel Lebens,Tatjana von Solodkoff,2023-10-31 *Thinking About Stories* is a fun and thought provoking introduction to philosophical questions about narrative fiction in its many forms from highbrow literature to pulp fiction to the latest shows on Netflix Written by philosophers Samuel Lebens and Tatjana von Solodkoff it engages with fundamental questions about fiction such as What is

it What does it give us Does a story need a narrator And why do sad stories make us cry if we know they aren't real The format of the book emulates a lively verbal exchange each chapter has only one author while the other appears spontaneously in dialogues in the text along the way raising questions and voicing criticisms and inviting responses from their co-author This unique format allows readers to feel like they are a part of the conversation about the philosophical foundations of some of the fictions in their own lives Key Features Draws on a wide range of types of narrative fiction from Harry Potter to Breakfast of Champions to Parks and Recreation Explores how fiction despite its detachment from truth is often best able to teach us important things about the world in which we live Concludes by asking in the final chapter whether we all might be fictions Includes bibliographies and suggested reading lists in each chapter The Idea of Difficulty in Literature Alan Carroll Purves, 1991-09-03 This book redefines the nature of textual difficulty in literature and shows the implications of the new definition for teachers at all levels of education Contrary to the traditional use of grade levels or readability formulae the authors redefine difficulty in terms of readers and the texts they meet They base their arguments on contemporary linguistic theory on historical and comparative studies of criticism on literary theory about readers and texts on post-Freudian psychology on empirical research concerning the nature of reading literature and on studies of classrooms curricula and testing What emerges is a coherent work that builds a case for seeing difficulty in literature as a human phenomenon more than a textual one **George Orwell** John Rodden, 2017-09-04 The making of literary reputations is as much a reflection of a writer's surrounding culture and politics as it is of the intrinsic quality and importance of his work The current stature of George Orwell commonly recognized as the foremost political journalist and essayist of the century provides a notable instance of a writer whose legacy has been claimed from a host of contending political interests The exemplary clarity and force of his style the rectitude of his political judgment along with his personal integrity have made him as he famously noted of Dickens a writer well worth stealing Thus the intellectual battles over Orwell's posthumous career point up ambiguities in Orwell's own work as they do in the motives of his would-be heirs John Rodden's *George Orwell The Politics of Literary Reputation* breaks new ground in bringing Orwell's work into proper focus while providing much original insight into the phenomenon of literary fame Rodden's intent is to clarify who Orwell was as a writer during his lifetime and who he became after his death He explores the dichotomies between the novelist and the essayist the socialist and the anti-communist and the contrast between his day-to-day activities as a journalist and his latter-day elevation to political prophet and secular saint Rodden's approach is both contextual and textual analyzing available reception materials on Orwell along with audiences and publications decisive for shaping his reputation He then offers a detailed historical and biographical interpretation of the reception scene analyzing how and why did individuals and audiences cast Orwell in their own images and how these projected images served their own political needs and aspirations Examined here are the views of Orwell as quixotic moralist socialist renegade anarchist English patriot neo-conservative
