The Hybrids Cora Buhlert, 2019-12-16 Gordon Havers thought that he was the last man on Earth after a virus killed off everybody else So he lived on much as he had before the pandemic that wiped out humanity eking out a living as a trapper in the Canadian Rockies But one day there is a knock on the door of Gordon s log cabin And when he opens the door he finds an attractive young woman on his doorstep to his infinite surprise So perhaps Gordon isn t the last living human being after all And maybe there is still a future for the human race There s only one problem Joanna Creed isn t human This is a novelette of 13400 words or approx 45 print pages altogether **Clients, Pets, and Vets** Carl Gorman, 2000 As a veterinary student

approaches the end of training and then starts that first job in practice there is a sense not only of achievement and fulfilment but also of terror and self doubt Few of us will ever again be as knowledgeable about all aspects of the care diseases and treatment of horses cows sheep pigs cats and dogs as we were at the time of graduation Unfortunately there is a seventh species to contend with the clients *Embers in the Ashes (Of History and Indifference)* Robert A.

Bonner, 2015-07-07 in 1993 an historian wrote The lynching was especially atrocious Two young black men were seized dragged into the woods and there chained to trees and tortured to death with blowtorches while a howling crowd of whites cursed and taunted them Photographs were made of the dead bodies K S Davis This historical novel ground breaking in its

emotional and graphic intensity portrays the impact of that atrocity 1937 on two empathetic boys who didn't taunt but secretly snapped pictures of the living screaming victims ironically one with FDR's surname and desperately tried to stop it. Two against 500, some came by school bus. Failing, they fled in despair and determination with their Brownie Eagle Eye, embarking on a compelling mission. They had no choice; they'd been out there. Enraged, then galvanized by the failures and heartbreaks of Book I, Einstein, Brian, and Maestro Marcus become avenging angels sworn to strike Preacher Creature Cecil and his henchmen from hell with the swords of retribution, self-defense, and un-Confederate justice. Kids no more, they begin to act like God because Somebody has to. With images of brutality sealed in camera conscience and nightmares, they write to Eleanor and FDR and accept her invitation to dinner at the White House. Irrevocably sworn to the most profound what if of the Twentieth Century, the boys pledge themselves to a daunting rendezvous with destiny, theirs and humanity's. And a Time Capsule ticket to 6939 CE and beyond from Albert Einstein.

Why Animals Talk Arik Kershenbaum, 2024-01-25. Wonderful. Endlessly interesting and beautifully written. DAILY TELEGRAPH. Steady-headed and fun. SUNDAY TIMES. Read this book and I promise you'll never listen to animals in the same way again. JESSICA PIERCE, author of *Who's a Good Dog?* *Why Animals Talk* is a scientific journey through the untamed world of animal communication. From the majestic howls of wolves and the enchanting chatter of parrots to the melodic clicks of dolphins and the spirited grunts of chimpanzees, these diverse and seemingly bizarre expressions are far from mere noise. In fact, they hold secrets that we are just beginning to decipher. For example, wolves just like humans possess unique accents that distinguish their howls; gibbons have different alarm calls for leopards and snakes and sing romantic duets with their partners; and dolphins not only give themselves names but respond excitedly to recordings of the whistles of long-lost companions. Chapter by chapter and animal by animal, Kershenbaum draws on his extensive research and observations of animals in the wild to explain the science behind why animals are communicating. Also revealing profound insights into our own language and why it is different. In doing so, *Why Animals Talk* tells the comprehensive story of communication and how it works across the entire animal kingdom. Quirky, insightful, based on a deep understanding of recent research. TIM CLUTTON-BROCK, author of *Meerkat Manor*. A new look at a fascinating subject. DESMOND MORRIS, author of *The Naked Ape*. *Toxic Substances*. United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Science, Technology, and Space, 1977.

Animal Souls Speak Robert Shapiro, 2007. Arcturus is the name given to the star system some thirty-seven light years from our own. It includes at least a half-dozen planetary bodies and is many times larger and much older than our own star and its system. Arcturian involvement with our system began over three million years ago when a space colony, a galactic space station, was established on Velatropa 24-4, otherwise known as Mars. With its 40,000-year warm cycles, Mars provided the perfect experimental way station. If anything went wrong at least those on the Arcturus system would not be affected, or so it was thought. Some of those in command of the Martian project had not considered carefully enough the inexorable efficacy of karma, the law of

cause and effect By the time strange events began to transpire on Mars little did anyone on Mars or Arcturus reckon the strange consequences of forgetting about each other's mutual existence Thus unfolds the tale of the Arcturian experimental way station V 24 4 otherwise known as Unnatural Selection Katrina van Grouw,2018-07-31 A lavishly illustrated look at how evolution plays out in selective breeding Unnatural Selection is a stunningly illustrated book about selective breeding the ongoing transformation of animals at the hand of man More important it's a book about selective breeding on a far far grander scale a scale that encompasses all life on Earth We'd call it evolution A unique fusion of art science and history this book celebrates the 150th anniversary of Charles Darwin's monumental work The Variation of Animals and Plants under Domestication and is intended as a tribute to what Darwin might have achieved had he possessed that elusive missing piece to the evolutionary puzzle the knowledge of how individual traits are passed from one generation to the next With the benefit of a century and a half of hindsight Katrina van Grouw explains evolution by building on the analogy that Darwin himself used comparing the selective breeding process with natural selection in the wild and like Darwin featuring a multitude of fascinating examples This is more than just a book about pets and livestock however The revelation of Unnatural Selection is that identical traits can occur in all animals wild and domesticated and both are governed by the same evolutionary principles As van Grouw shows animals are plastic things constantly changing In wild animals the changes are usually too slow to see species appear to stay the same When it comes to domesticated animals however change happens fast making them the perfect model of evolution in action Suitable for the lay reader and student as well as the more seasoned biologist and featuring more than four hundred breathtaking illustrations of living animals skeletons and historical specimens Unnatural Selection will be enjoyed by anyone with an interest in natural history and the history of evolutionary thinking

On the Turtle's Back Camilla Townsend,Nicky Kay Michael,2023-09-15 The Lenape tribe also known as the Delaware Nation lived for centuries on the land that English colonists later called New Jersey But once America gained its independence they were forced to move further west to Indiana then Missouri and finally to the territory that became Oklahoma These reluctant migrants were not able to carry much from their ancestral homeland but they managed to preserve the stories that had been passed down for generations On the Turtle's Back is the first collection of Lenape folklore originally compiled by anthropologist M R Harrington over a century ago but never published until now In it the Delaware share their cherished tales about the world's creation epic heroes and ordinary human foibles It features stories told to Harrington by two Lenape couples Julius and Minnie Fouts and Charles and Susan Elkhair who sought to officially record their legends before their language and cultural traditions died out More recent interviews with Lenape elders are also included as their reflections on hearing these stories as children speak to the status of the tribe and its culture today Together they welcome you into their rich and wondrous imaginative world Handbook on Animal-Assisted Therapy Aubrey H Fine,2015-05-12 In the 15 years since the first edition of Handbook on Animal Assisted Therapy published the field
