

ON PURPOSE:

towards a unified theory of responsible investment

Working paper

Susheela Peres da Costa

01 October 2020

ABSTRACT:

A functional framework for responsible investment is necessary for quality and consistency in selection, differentiation, and evaluation of varied responsible investment applications as used by investors and / or their service providers. Understanding responsible investment as an intervention aimed at correcting for gaps in conventional financial markets' recognition of real value provides such a framework. Using this framework enables universal investors and those with similar economic interests to identify offerings capable of meeting their needs.
