Economic Prospects, January 2015 World Bank Publications, 2015-01-26 As in previous years, global growth disappointed in 2014 but a lackluster recovery is underway with increasingly divergent prospects in major economies and developing countries. Looking ahead, growth is expected to rise slowly, supported by continued recovery in high-income countries, low oil prices and receding domestic headwinds in developing economies. However, continued weak global trade growth and gradually tightening financial conditions will constrain the recovery. Risks to the outlook remain tilted to the downside. In addition to discussing global and regional economic developments and prospects, this edition of *Global Economic Prospects* includes four essays that analyze key challenges and opportunities currently confronting developing countries: fiscal policy as a countercyclical policy tool; causes and implications of cheap oil; weak trade that fails to act as an engine of growth; and remittances as a means of steadying consumption during sudden stops. *Global Economic Prospects* is a World Bank Group Flagship Report. On a semiannual basis, January and June, it examines global economic developments and prospects with a special focus on developing countries. The report includes analysis of topical policy challenges faced by developing countries.

Accounting Finance Tax Law **Multiannual Macroeconomic Programming Techniques for Developing Economies** Paul Beckerman,Paul Ely Beckerman,2010 This book describes practical techniques to formulate multiannual macroeconomic projections for developing economies The approach is broadly similar to that of well known financial programming models but some of the material including solution procedures for the external and fiscal projections and the external debt projection methodology is innovative The basic aim of macroeconomic programming exercises is to determine whether a quantitatively specified macroeconomic and government expenditure policy program would be financially feasible that is consistent over

time with external and internal financing likely to be available Exercises of the kind described here formulate national external fiscal and monetary accounts projections based on i assumed behavioral parameters ii assumed exogenous world conditions and internal variables iii programmed macroeconomic objectives such as real growth inflation and exchange rate evolution iv programmed real government expenditure v an external debt program and vi data for the base year preceding the projection period The projections include estimates of the external and internal financing the public sector and economy as a whole would require which may be evaluated for feasibility Among other applications macroeconomic programming exercises may be used to help gauge the financial feasibility of development and poverty reduction objectives like the UN Millennium Development Goals or to address external debt sustainability *World Economic Outlook, October 2014* International Monetary Fund. Research Dept.,2014-10-07 The pace of recovery has disappointed in recent years and downside risks have increased including from heightened geopolitical tensions These increased risks make it a priority to raise actual and potential growth In a number of economies an increase in public infrastructure investment can also provide support to demand and help boost potential output And in advanced economies as well as emerging and developing economies there is a general urgent need for structural reforms to strengthen growth potential or make growth more sustainable The four individual chapters examine the overall global outlook the prospects for individual countries and regions the benefits of increased public infrastructure investment in terms of raising output and the extent to which global imbalances have narrowed significantly since their peak in 2006 *Economic and fiscal outlook March 2012* Office for Budget Responsibility,Great Britain. Office for Budget Responsibility,2012-03-21 The Office for Budget Responsibility was established to provide independent and authoritative analysis of the UK s public finances Part of this role includes producing the official economic and fiscal forecasts This report sets out forecasts for the period to 2016 17 The report also assesses whether the Government is on course to meet the medium term fiscal objectives The OBR assessment of the outlook and risks for the UK economy is broadly unchanged since the November 2011 report A technical recession will be avoided with positive growth in the first quarter of 2012 GDP will grow by 0.8% in 2012 2% in 2013 2.7% in 2014 and 3% for 2015 16 period Public sector net borrowing is forecast to total 126 billion 8.3% of GDP this year which is 1.1 billion less than the November forecast For 2016 17 the PSNB is then forecast to decline to 21 billion The fall in PSNB in 2012 13 is much larger than the OBR s November forecast due to the Government s decision to transfer the Royal Mail s historic pension deficit The Chancellor s decision to cut 50% additional rate income tax to 45% has an estimated direct cost to the Exchequer of 0.1 billion in 2013 14 Other forecasts by the OBR include the ILO unemployment rate to rise from 8.4% to 8.7% over the coming year household disposable income growth to be weak in 2012 13 but consumption to begin to offer some support to the recovery in the second half of the year that the situation in the euro area remains a major risk to accurate forecasting The publication is divided into five chapters Chapter 1 Executive summary Chapter 2 Developments since the November 2011 forecast Chapter

Economic and fiscal outlook Office for Budget Responsibility, 2010-11-29 The Office for Budget Responsibility was established to provide independent and authoritative analysis of the UK's public finances Part of this role includes producing the official economic and fiscal forecasts This report sets out forecasts for the period to 2015/16 The report also assesses whether the Government is on course to meet the medium term fiscal objectives and presents preliminary observations on the long run sustainability of the public finances Since the June forecast the UK economy has recovered more strongly than initially expected The GDP growth was greater than expected in both the 2nd and 3rd quarters but that unemployment levels have risen to levels that the June forecast did not anticipate until the middle of 2012 In general the world economy has also grown more strongly CPI inflation

has remained slightly higher than expected in June whilst public finances have performed as forecast The interest rates on UK debt are lower than in June The OBR forecasts that the economy will continue to recover from the recession but at a slower pace than the recoveries of the 1970s 1980s and 1990s The publication is divided into 5 chapters with two annexes

Office for Budget Responsibility Office for Budget Responsibility, 2011-11-29 This economic and fiscal outlook sets out the Office for Budget Responsibility OBR forecast for the period to 2016/17 The economy has grown less strongly than forecast in March primarily because higher than expected inflation has squeezed household incomes and consumer spending The eurozone crisis has impacted on business and consumer confidence Consequently the OBR has revised its growth forecasts downwards It expects the underlying momentum of the economy to pick up through 2012 but with the headline measure of GDP broadly flat until the second half The central forecast is now for 0.7 per cent growth in GDP in 2010/2011 2.1 per cent in 2012 2.7 per cent in 2013 2.7 per cent in 2014 and 3 per cent in 2015 and 2016 Public sector net borrowing PSNB is expected to total 127 this year 8.4 per cent of GDP but the downward revision of growth forecasts means the deficit will shrink less quickly over the next five years with a forecast 53 billion PSNB 2.9 per cent of GDP in 2015/16 Unemployment is expected to rise further to 8.7 per cent in 2012 before falling back to 6.2 per cent by 2016 The OBR estimates that the Government has a roughly 60 per cent chance of meeting its mandate to balance the structural or cyclically adjusted current budget by 2016/17 The central economic and fiscal forecasts assume that the euro area finds a way through its current crisis but a more disorderly outcome is clearly a significant risk
