Introduction to Elliptic Curves and Modular Forms Neal I. Koblitz, 2012-12-06 This textbook covers the basic properties of elliptic curves and modular forms with emphasis on certain connections with number theory The ancient congruent number problem is the central motivating example for most of the book My purpose is to make the subject accessible to those who find it hard to read more advanced or more algebraically oriented treatments At the same time I want to introduce topics which are at the forefront of current research Down to earth examples are given in the text and exercises with the aim of making the material readable and interesting to mathematicians in fields far removed from the subject of the book With numerous exercises and answers included the textbook is also intended for graduate students who have completed the standard first year courses in real and complex analysis and algebra Such students would learn applications of techniques from those courses thereby solidifying their understanding of some basic tools used throughout mathematics Graduate students wanting to work in number theory or algebraic geometry would get a motivational example oriented introduction In addition advanced undergraduates could use the book for independent study projects senior theses and seminar work

AI Deep Learning in Image Processing Frank Y. Shih, 2025-10-14 Image processing plays a crucial role in various fields including digital multimedia automated vision detection and inspection and pattern recognition AI Deep Learning in Image Processing aims to provide a comprehensive overview of the mechanisms and techniques involved with a particular focus on the application of advanced AI deep learning technologies in image processing The field of image processing has experienced unprecedented growth in recent years Image processing presents the latest state of the art developments alongside clear explanations of fundamental concepts and contemporary applications By emphasizing essential principles this book enables readers to not only implement algorithms and techniques with ease but also identify new challenges and explore innovative applications in the field New and advanced AI deep learning techniques for image processing as comparing against traditional image processing methods Numerous practical examples and AI image processing related applications A more intuitive development and clear explanation to the complex technology Updated image processing technology in medical chemical and ecological fields Extensive discussions of performance comparisons of various AI deep learning image processing methods This book is designed for students researchers and professionals seeking to enhance their knowledge gain practical insights and explore the evolving role of image processing in modern technology **Engineering**, 1867

Introduction to Elliptic Curves and Modular Forms Neal Koblitz, 1984 The theory of elliptic curves and modular forms provides a fruitful meeting ground for such diverse areas as number theory complex analysis algebraic geometry and representation theory This book starts out with a problem from elementary number theory and proceeds to lead its reader into the modern theory covering such topics as the Hasse Weil L function and the conjecture of Birch and Swinnerton Dyer The second edition of this text includes an updated bibliography indicating the latest dramatic changes in the direction of

proving the Birch and Swinnerton conjecture It also discusses the current state of knowledge of elliptic curves *S.Chand ICSE Mathematics Class IX (2021 Edition)* O P MALHOTRA, S Chand s ICSE Mathematics is structured according to the latest syllabus as per the new CISCE Council for the Indian School Certificate Examinations New Delhi *A Treatise on the Steam Engine in Its Application to Mines, Mills, Steam Navigation, and Railways* John Bourne (C.
