

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Strategic Reassurance and Resolve James Steinberg, Michael E. O'Hanlon, 2015-08-25 How the United States and China can avoid future conflict and establish stable cooperative relations After forty years of largely cooperative Sino U S relations policymakers politicians and pundits on both sides of the Pacific see growing tensions between the United States and China Some go so far as to predict a future of conflict driven by the inevitable rivalry between an established and a rising power and urge their leaders to prepare now for a future showdown Others argue that the deep economic interdependence between the two countries and the many areas of shared interests will lead to more collaborative relations in the coming decades In this book James Steinberg and Michael O Hanlon stake out a third less deterministic position They argue that there are powerful domestic and international factors especially in the military and security realms that could well push the bilateral relationship toward an arms race and confrontation even though both sides will be far worse off if such a future comes to pass They contend that this pessimistic scenario can be confidently avoided only if China and the United States adopt deliberate policies designed to address the security dilemma that besets the relationship between a rising and an established power The authors propose a set of policy proposals to achieve a sustainable relatively cooperative relationship between the two nations based on the concept of providing mutual strategic reassurance in such key areas as nuclear weapons and missile defense space and cyber operations and military basing and deployments while also demonstrating strategic resolve to protect vital national interests including in the case of the United States its commitments to regional allies
