

MARK SCHEME for the May/June 2014 series

2281 ECONOMICS

2281/22

Paper 2 (Structured Questions), maximum raw mark 90

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2014 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Russia and the World in the Putin Era Roger E. Kanet, Dina Moulioukova, 2021-09-27 This volume examines the role of Russia in the world under President Putin's rule When the Soviet Union disintegrated after the Cold War Russia seemingly embarked on the establishment of a democratic political system and seemed intent on joining the liberal international order However under President Putin's rule there have been dramatic shifts in Russian domestic and foreign policies in order to re-establish itself as a great power This book examines broad aspects of Russian political culture and threat perception such as Russia's reaction to NATO expansion its information warfare and energy policies and its policy towards the Global South especially the Middle East and Africa The objective of the analyses is to explain the factors that influence Russian foreign policy and to show how and why Russian relations with the European Union and the United States have deteriorated so rapidly in recent years The volume introduces an alternative approach to the standard realist perspective which often underlies existing analyses of Russian policy namely the work offers a theoretical perspective that focuses on the Russian sense of identity and on ontological security This book will be of much interest to students of Russian foreign policy security studies and International Relations
