GNMA Prepayments Nikolaos T. Milonas, Nelson J. Lacey, 1988 This study examines GNMA prepayments as a function of interest rate factors and the pure aging effect The study finds that although both interest rate factors and the pure aging effect are statistically significant in explaining actual prepayment experience the structural relationship is not constant across pool rates This suggests that precise estimates and forecasts of prepayments need to be made on a pool by pool basis The study also documents a lagged relationship between interest rates and prepayment experience in periods of falling interest rates suggesting that the prepayment decision date is made many months before the prepayment recording date
