The purpose of Introducing Story Strategic Methods is to awaken us in the cross cultural context Our natural tendency is to be asleep to our own cultural values and core worldview assumptions This tendency applies as well to our expectations in the cross cultural context For example in what ways would a justice pattern of culture orient our speech and behavior To what degree is a justice pattern of culture different from an honor pattern of culture The book asserts that culture matters in effective communication Going further to what degree does a story told from the Bible nullify the power of culture Often we assume that the biblical story trumps culture It does not The book affirms rigorously that culture is much more powerful than we first suppose If in fact culture trumps the biblical story Therefore understanding and skills are required for effective engagement across cultures Strategic storytelling is a twelve step methodology that addresses the problems of miscommunication and syncretism that plague the cross cultural context It offers a step by step solution that promises success Insights are firmly rooted in Scripture and equally grounded in empirical research from the social sciences The stories told throughout the book are true The answers are compelling *The Restaurants Book* David Beriss,David Sutton,2007-12-15
