SCAVENGER HUNT

The image shows a central human figure with a red heart, surrounded by several cards describing different body systems. The cards are arranged in a collage-like fashion, with some overlapping. The cards include:

- Digestive system:** breaks down nutrients in the stomach and intestines, then absorbed into the body.
- Urinary system:** including the kidneys and bladder, removes waste from the blood and regulates water and electrolyte balance.
- Reproductive system:** enables reproduction. In males, it involves organs such as testes. In females, it involves organs such as ovaries.
- Nervous system:** includes the brain, spinal cord, and nerves. It controls voluntary and involuntary actions, such as walking and breathing.
- Circulatory system:** transports blood throughout the body.
- Respiratory system:** takes in oxygen and removes carbon dioxide.
- Muscular system:** provides movement and support.
- Skeletal system:** provides structure and support.

Each card has a "CODE WORD" section with a question related to the system. The cards are numbered 1 through 7. A "Quest" logo is visible in the bottom right corner.
