Geography

- The Nile River provided fertile soil and water for farming.

Government

Egypt was ruled by pharaohs, who were powerful leaders. Pharaohs were seen as gods on Earth.

Economy

The Nile helped Egyptians grow crops like wheat and flax. They traded wheat for things like gold and timber. Timber was used to build boats, which allowed them to sail the African coast and expand their trading industry.

Art & Culture

Egyptians were using hieroglyphs (picture writing). The Rosetta Stone helped people figure out the meaning of hieroglyphs. Egyptians believed in many gods (polytheism), like Ra (sun god) and the goddess of magic.

Contributions & Innovations

Egyptians used math and astronomy to make a 365-day calendar and a clock. Egyptians made paper from papyrus to print along the Nile.

Architecture

Egyptians built pyramids as tombs for pharaohs. They used ramps and levers to move big stones. The Great Sphinx is a famous sphinx with a lion's body and a man's head. It was built to guard the pyramids.

Freeman, David L. Smith, 2019-10-14 The essays in this volume seek to analyze biographical films as representations of historical individuals and the times in which they lived To do this contributors examine the context in which certain biographical films were made including the state of knowledge about their subjects at that moment and what these films reveal about the values and purposes of those who created them This is an original approach to biographical as opposed to historical films and one that has so far played little part in the growing literature on historical films The films discussed here date from the 1920s to the 2010s and deal with males and females in periods ranging from the Middle Ages to the end of the twentieth century In the process the book discusses how biographical

films reflect changing attitudes towards issues such as race gender and sexuality and examines the influence of these films on popular perceptions of the past The introduction analyses the nature of biographical films as a genre it compares and contrasts the nature of biography on film with written biographies and considers their relationship with the discipline of history As the first collection of essays on this popular but understudied genre this book will be of interest to historians as well as those in film and cultural studies
