Making Art With Generative AI Tools Hai-Jew, Shalin, 2024-04-01 In the dynamic realm of generative artificial Intelligence AI the fusion of human creativity and machine intelligence has created a vibrant ecosystem of collaborative artmaking However this transformative process brings forth a myriad of concerns ranging from ethical considerations and the need for originality to navigating the legal complexities surrounding intellectual property As more and more online communities appear around the use of AI to aid in the creation of images there arises a pressing need for a comprehensive guide that not only dissects the intricacies of artmaking with generative AI tools but also offers practical solutions to the evolving dilemmas faced by artists researchers and technologists *Making Art With Generative AI Tools* emerges as an exploration of the challenges posed by this intersection of human expression and artificial intelligence Artists engaging with generative AI find themselves grappling with issues of authenticity social toxicity and the commercial viability of their creations From avoiding stereotypical visuals to ensuring proper crediting the realm of generative AI is rife with these complexities Furthermore the blurred lines between human and machine authorship necessitate a deeper exploration of how these innovative tools impact creativity representation and the very fabric of the art world

The AI Mirror Shannon Vallor, 2024 For many AI technology inspires hope for the future the promise of shared human flourishing and collective liberation from drudgery that defines the good life but always seems to elude our species Yet today s AI technology is forged from human generated data into immensely powerful but flawed mirrors that

endlessly reflect the same errors biases and failures of wisdom we are striving to escape To open new futures for ourselves with these tools is as misguided as gazing into a mirror while trying to climb an uncharted mountain At this crucial juncture for humanity and our planet we need something new from AI and more importantly from ourselves We need to find new hope not to surrender our greatest moral and intellectual ambitions to machines that have none but to renew those ambitions collectively for ourselves Shannon Vallor makes a wide ranging prophetic and philosophical case for what AI could be and what we can be with it She calls us to reclaim our human potential for moral and intellectual growth rather than losing sight of our shared humanity as we gaze dully into our AI mirrors
