Strategy E Magazine ,2023-10-01 Media technological advances have altered the way we consume and engage with

information in today's fast changing digital environment. Each new innovation from the printing press to the OTT has revolutionized the media landscape and the way it affects society. It's critical to understand the tremendous changes that have already taken place and the ramifications for the future as we approach a new age in media technology. I visited and participated at the International Broadcasting Convention 2023 held at Amsterdam and was amazed with the huge landscape of media technology software and hardware developing pace. Media technology has made incredible strides in recent years due to machine learning and artificial intelligence. By curating personalized content recommendations, algorithms make it simpler for consumers to find content that is relevant to their interests. Immersive storytelling experiences are made possible by virtual and augmented reality technologies, which is altering how we interact with media material. However, these advancements raise important ethical and societal questions. The growth of deep fakes challenges the authenticity of media, making it increasingly difficult to discern fact from fiction. The algorithms that power content recommendations can lead to filter bubbles and echo chambers, reinforcing people's existing beliefs and limiting exposure to diverse perspectives. As we look ahead, let us embrace these advancements as tools for progress, making the media an even more influential force for positive change in our world.

International Sport Business Management James J. Zhang, Brenda G. Pitts, Lauren M. Johnson, 2021-04-13. This book showcases new research in sport business management around the world, offering a platform for the international exchange of ideas, best practices, and scientific inquiries in a globalized sport economy. Featuring work from leading sport management scholars from around the world, including North America, South America, Europe, Africa, and Asia, the book addresses a variety of global, regional, national, and community issues that are central to successful sport management. Combining both qualitative and quantitative studies, it explores key themes such as the emergent environment, managing change, organizational transformation, application of technology, marketing and promotion, and research protocols. New case studies cover topics such as entrepreneurship and innovation, sport broadcasting, digital technologies, youth and college sports, and the development of the sport management curriculum. *International Sport Business Management* is a fascinating reading for all students and scholars of sport management, sport business, and sport marketing, as well as for any professional working in the sport and leisure industries.
