Identities D. Jean Clandinin,Janice Huber,Marilyn Huber,M. Shaun Murphy,Anne Murray Orr,Marni Pearce,Pam Steeves,2006-04-18 In a climate of increasing emphasis on testing measurable outcomes competition and efficiency the real lives of children and their teachers are often neglected or are too messy and intricate to legislate and quantify As such curricula are designed without including the very people that compose the identities of schools Here Clandinin takes issue with this tendency bringing together a collection of narratives from seven writers who spent a year in an urban school exploring the experiences and contributions of children families teachers and administrators These stories show us an alternative way of attending to what counts in schools shifting away from the school as a business model towards an idea of schools as places to engage citizenship and to attend to the wholeness of people s lives Articulating the complex ethical dilemmas and issues that face people and schools every day this fascinating study puts school life under the microscope raises new questions about who and what education is for **If this is Social Studies, why Isn't it Boring?** Stephanie Steffey,Wendy J. Hood,1994 The provocative title of this book plays on a too familiar response from teachers and students alike But now many teachers have begun to seek an approach to social studies that takes account of the ways children learn and that builds on their own knowledge and strengths The authors in this book have found ways to do this Wendy Hood writes in the Introduction that they have not only rediscovered social studies education in general they have also found themselves exploring the many disciplines of the social sciences that combine to make social studies The issues of the disciplines are visible the content of the disciplines is visible and the questions central to each discipline are central in these classrooms While the studies described began in one discipline they branched out or melted into one or more of the others In this contributed collection twenty three teachers explain their successful strategies for teaching the social studies disciplines in a whole language context If This Is Social Studies covers contemporary subjects the Gulf War traditional topics students as historians well known projects Scottish Storyline social studies in the community and multicultural matters Teachers at elementary through middle and high school levels will find this book s holistic approach to social studies a refreshing departure and a source of new practical ideas Indeed the diversity of ideas and styles is as broad as the book s subject
