Angels By The River A Memoir:

Angels by the River James Gustave Speth, 2014 Reflections on race environment politics and living on the front lines of change In *Angels by the River* James Gustave Gus Speth recounts his unlikely path from a southern boyhood through his years as one of the nation's most influential mainstream environmentalists and eventually to the system changing activism that shapes his current work Born and raised in an idyllic but racially divided town that later became the scene of South Carolina's horrific Orangeburg Massacre Speth explores how the civil rights movement and the South's agrarian roots shaped his later work in the heyday of the environmental movement when he founded two landmark environmental groups fought for the nation's toughest environmental laws spearheaded programs in the United Nations advised the White House and moved into a leading academic role as dean of Yale's prestigious School of Forestry and Environmental Studies Yet in the end he arrived somewhere quite unexpected still believing change is possible but not within the current political and economic system Throughout this compelling memoir Speth intertwines three stories his own his hometown's and his country's focusing mainly on his early years and the lessons he drew from them and his later years in which he comes full circle in applying those lessons In the process he invites others to join him politically at or near the place at which he has arrived wherever they may have started

The Social Profit Handbook David Grant, 2015-03-23 How do you measure the success of a social profit institution where missions are focused on the well being of people place and planet It is one of the most difficult tasks faced by non profit administrations who find themselves confused even paralyzed by the current demand for outcomes measurement a phrase used by most foundations and funding agencies and increasingly by individual donors The Social Profit Handbook gives those who lead govern and support social profit organizations both a different way to think about assessment and a very practical approach to implementing formative assessment practices practices whose purpose is not about judging work that has already happened but rather about improving work that will happen in the future Readers looking to improve planning and outcomes will find new insights and strategies from backward planning to applied rubrics These tools along with a host of case studies from around the nation make The Social Profit Handbook a unique organizational development tool for a wide range of social profit organizations as well as social venture businesses from low profit corporations to B Corps Drawing upon decades of leadership in the foundation and non profit worlds David Grant clarifies and emboldens the pursuit of social profit in multiple forms The result more benefits to society more social profit and stronger more effective social profit organizations

Beyond the New Deal Order Gary Gerstle, Nelson Lichtenstein, Alice O'Connor, 2019-12-27 Ever since introducing the concept in the late 1980s historians have been debating the origins nature scope and limitations of the New Deal order the combination of ideas electoral and governing strategies redistributive social policies and full employment economics that became the standard bearer for political liberalism in the wake of the Great Depression and commanded Democratic majorities for decades In the decline and break up of the New Deal coalition

historians found keys to understanding the transformations that by the late twentieth century were shifting American politics to the right In *Beyond the New Deal Order* contributors bring fresh perspective to the historic meaning and significance of New Deal liberalism while identifying the elements of a distinctively neoliberal politics that emerged in its wake Part I offers contemporary interpretations of the New Deal with essays that focus on its approach to economic security and inequality its view of participatory governance and its impact on the Republican party as well as Congressional politics Part II features essays that examine how intersectional inequities of class race and gender were embedded in New Deal labor law labor standards and economic policy and brought demands for employment economic justice and collective bargaining protections to the forefront of civil rights and social movement agendas throughout the postwar decades Part III considers the precepts and defining narratives of a post New Deal political structure while the closing essay contemplates the extent to which we may now be witnessing the end of a neoliberal system anchored in free market ideology neo Victorian moral aspirations and post Communist global politics Contributors Eileen Boris Angus Burgin Gary Gerstle Romain Huret Meg Jacobs Michael Kazin Sophia Lee Nelson Lichtenstein Joe McCartin Alice O Connor Paul Sabin Reuel Schiller Kit Smemo David Stein Jean Christian Vinel Julian Zelizer

What We Think About When We Try Not To Think About Global Warming Per Espen Stoknes, 2015-04-03 Why does knowing more mean believing and doing less A prescription for change The more facts that pile up about global warming the greater the resistance to them grows making it harder to enact measures to reduce greenhouse gas emissions and prepare communities for the inevitable change ahead It is a catch 22 that starts says psychologist and economist Per Espen Stoknes from an inadequate understanding of the way most humans think act and live in the world around them With dozens of examples from the private sector to government agencies Stoknes shows how to retell the story of climate change and at the same time create positive meaningful actions that can be supported even by deniers In *What We Think About When We Try Not To Think About Global Warming* Stoknes not only masterfully identifies the five main psychological barriers to climate action but addresses them with five strategies for how to talk about global warming in a way that creates action and solutions not further inaction and despair These strategies work with rather than against human nature They are social positive and simple making climate friendly behaviors easy and convenient They are also story based to help add meaning and create community and include the use of signals or indicators to gauge feedback and be constantly responsive Whether you are working on the front lines of the climate issue immersed in the science trying to make policy or educate the public or just an average person trying to make sense of the cognitive dissonance or grapple with frustration over this looming issue *What We Think About When We Try Not To Think About Global Warming* moves beyond the psychological barriers that block progress and opens new doorways to social and personal transformation

Born on Third Base Chuck Collins, 2016 With the heart of an agitator and the soul of a storyteller inequality expert Chuck Collins upends our assumptions about America s deep wealth divide one that for the first time in recent history locks

the nation's youth into a future defined by their class and wealth at birth limits our ability to address crises like climate change and creates a world that no one not even the rich will ultimately want to live in In this book Collins calls for an end to class war busts the myths that define our views of rich and poor and offers bold new solutions for bridging the economic divide and re engaging the wealthy in rebuilding communities for a resilient future *The ALL NEW Don't Think of an Elephant!* George Lakoff, 2014-09-23 Lakoff is the father of framing The New York Times An indispensable tool for progressives packed with new thinking on framing issues that are hotly debated right now Jennifer M Granholm former governor of Michigan Ten years after writing the definitive international bestselling book on political debate and messaging George Lakoff returns with new strategies about how to frame today's essential issues Called the father of framing by The New York Times Lakoff explains how framing is about ideas ideas that come before policy ideas that make sense of facts ideas that are proactive not reactive positive not negative ideas that need to be communicated out loud every day in public The ALL NEW Don't Think of an Elephant picks up where the original book left off delving deeper into how framing works how framing has evolved in the past decade how to speak to people who harbor elements of both progressive and conservative worldviews how to counter propaganda and slogans and more In this updated and expanded edition Lakoff urges progressives to go beyond the typical laundry list of facts policies and programs and present a clear moral vision to the country one that is traditionally American and can become a guidepost for developing compassionate effective policy that upholds citizens well being and freedom **The Angel in the House** Coventry Patmore, 1858 **"River City": Memoirs of a Combat Chief Information Officer** LTC Martin D. Hunt, 2017-09-19 In July 2006 Martin Hunt was a successful software sales professional with a wife two sons a happy life in Seattle and a commitment to the U S Army that he was not sure he'd ever be called on to fulfill A year later he was a resident of Camp Ramadi a dusty outpost at the epicenter of Operation Iraqi Freedom A senior officer surrounded by young men charged with the highly dangerous task of clearing improvised explosive devices from supply routes Hunt soon grew to dread the call River City the code for incoming casualties Trapped between his real life in Seattle visited through Skype and a furlough that seemed over before it began and the hell of River City Hunt provides a window into the paradigm shifting experience of deployment in the War on Terror a story of faith love and life interrupted *Angels by the River* James Gustave Speth, 2022-10-12 *Angels by the River* follows James Gustave Speth's unlikely path from a Southern boyhood to his career as an influential mainstream environmentalist to his current system changing activism Born and raised in a town where both the best and worst of the South shone through Speth explores how the civil rights movement and the South's agrarian roots influenced his professional life from creating and upholding the nation's toughest environmental laws to overseeing global aid programs Rather than merely reflect on these accomplishments Speth uses the past to make the case that a new environmentalism is needed to confront today's challenges The advancing climate crisis cannot be addressed he warns if we remain fixated on endless growth and consumption

increasing the incomes of a few neglecting needs of the many and helping abroad only modestly An American tale in all its complexity Speth's memoir is an inspiration for readers seeking ways to make a difference in an increasingly complex world
