Kirchner,James Sperling,2010-07-12 This edited volume examines changes of national security culture and the implications that this has for international security **Strategic Cultures in Europe** Heiko Biehl,Bastian Giegerich,Alexandra Jonas,2013-04-09 European countries work together in crisis management conflict prevention and many other aspects of security and defence policy Closer cooperation in this policy arena seems to be the only viable way forward to address contemporary security challenges Yet despite the repeated interaction fundamental assumptions about security and defence remain remarkably distinct across European nations This book offers a comparative analysis of the security and defence policies of all 27 EU member states and Turkey drawing on the concept of strategic culture in order to examine the chances and obstacles for closer security and defence cooperation across the continent Along the lines of a consistent analytical framework international experts provide case studies of the current security and defence policies in Europe as well as their historical and cultural roots *EU Industrial Policy in the Multipolar Economy* Defraigne, Jean-Christophe,Wouters, Jan,Traversa, Edoardo,Zurstrassen, Dimitri,2022-10-14 This incisive book provides key interdisciplinary perspectives on the current challenges faced by EU policymakers in framing and implementing a coherent European industrial policy employing specific case studies from the digital automotive steel and defence industries as well as concrete examples of EU policies **Economic Patriotism in Open Economies** Ben Clift,Cornelia Woll,2013-09-13 The recent financial crisis has demonstrated that governments continuously seek to steer their economies rather than leaving them to free markets Despite the ambitions of international economic cooperation such interventionism is decidedly local Some politicians even proudly evoke economic patriotism to justify their choices This volume links such populism to a specific set of tensions the paradox of neo liberal democracy and argues that the phenomenon is ubiquitous The mandate of politicians is to defend the economic interests of their constituents under conditions where large parts of economic governance are no longer exclusively within their control Economic patriotism is

one possible reaction to this tension As old style industrial policy and interventionism gained a bad reputation governments had to become creative to assure traditional economic policy objectives with new means However economic patriotism is more than just a fashionable word or a fig leaf for protectionism This volume employs the term to signal two distinctions the diversity of policy content and the multiplicity of territorial units it can refer to Comparing economic interventionism across countries and sectors it becomes clear that economic liberalism will always be accompanied by counter movements that appeal to territorial images This book was published as a special issue of the Journal of European Public Policy 1997 : L'année stratégique Institut de relations internationales et stratégiques,1997-01-01T00:00:00+01:00 Ouvrage de référence L'année stratégique accueille comme chaque année les contributions des meilleurs spécialistes réunis sous la direction de Pascal Boniface Ils présentent une analyse complète de la situation mondiale clarent tous les grands enjeux du moment et mettent en évidence l'impact par l'impact les évolutions géostratégiques présentes et venir L'année stratégique 1997 s'enrichit de nouvelles annexes statistiques qui au-delà des traditionnelles mais indispensables données militaires s'élargissent la démographie et l'économie Sous forme de fiches pays et de classements des pays elles offrent au lecteur les informations les plus récentes et les plus pertinentes pour valuer les facteurs de puissance de chaque état de la planète **The Economics of the Global**

Defence Industry Keith Hartley, Jean Belin, 2019-11-08 This book makes an original contribution to our knowledge of the world's major defence industries Experts from a wide range of different countries from the major economies of North America and Western Europe to developing economies and some unique cases such as China India Singapore South Africa and North Korea describe and analyse the structure conduct and performance of the defence industry in that country Each chapter opens with statistics on a key nation's defence spending its spending on defence R D and on procurement over the period 1980 to 2017 allowing for an analysis of industry changes following the end of the Cold War After the facts of each industry the authors describe and analyse the structure conduct and performance of the industry The analysis of structure includes discussions of entry conditions domestic monopoly oligopoly structures and opportunities for competition The section on conduct analyses price non price competition including private and state funded R D and performance incorporates profitability imports and exports together with spin offs and technical progress The conclusion explores the future prospects for each nation's defence industry Do defence industries have a future What might the future defence firm and industry look like in 50 years time This volume is a vital resource and reference for anyone interested in defence economics industrial economics international relations strategic studies and public procurement **IBSS: Political**
