The Ecology of Modernism Joshua Schuster, 2015-10-15 The Ecology of Modernism explores the unexpected absence of an environmental ethic in American modernist and avant garde poetics given its keen concern with an environmental aesthetic and explains why American modernism was never green Examining the relationships of key modernist writers poets and musicians to nature industrial development and pollution Joshua Schuster posits that the curious failure of modernist poets to develop an environmental ethic was a deliberate choice and not an inadvertent omission

Decolonial Animal Ethics in Linda Hogan's Poetry and Prose Małgorzata Poks, 2023-07-28 Decolonial Animal Ethics in Linda Hogan's Poetry and Prose is a plea for an urgent redefinition of human animal relations on the basis of a nonanthropocentric animal ethic embraced by premodern Indigenous communities but depreciated by coloniality Without decolonial revisions of animal subjectivity and personhood the animal genocide can never truly stop It is also a close reading of Linda Hogan's poetry and prose in search of the coordinates of a decolonized animal ethic which would foster interspecies becoming Having defined the recurring tropes motifs and attitudes that underpin Hogan's treatment of nonhuman animals the book moves on to trace the way she depicts the human animal bond especially in the face of the destructive

anthropogenic impact The major questions guiding the analysis of Hogan s oeuvre are as follows who are the animals we share our earthly lives with what can they teach us about ourselves how can animals guide us toward more sustainable futures and what are the conditions of possibility of an interspecies human animal thriving This book will be of interest to scholars and students of Indigenous Studies Decolonial Studies Animal Studies Ecocriticism Anthropocene Studies as well as readers of Linda Hogan s literary works **Fun with Action Rhymes and Poems** Brenda Williams,2010-11-19 Contains 83 delightful new rhymes and poems Teachers notes provide suggestions for using rhymes to support learning across the curriculum The rhymes and poems are linked and cross referenced to popular themes The rhymes will foster a love of rhythm and rhyme create a sense of beat and rhythm and lay the foundations for understanding patterns in language music and mathematics Use and enjoy the rhymes and poems on their own or as a way of introducing new ideas and starting discussions

Memorializing Animals during the Romantic Period Chase Pielak,2016-04-22 Early nineteenth century British literature is overpopulated with images of dead and deadly animals as Chase Pielak observes in his study of animal encounters in the works of Charles and Mary Lamb John Clare Samuel Taylor Coleridge Lord Byron and William Wordsworth These encounters Pielak suggests coincide with anxieties over living alongside both animals and cemeteries in the late eighteenth and early nineteenth centuries Pielak traces the linguistic physical and psychological interruptions occasioned by animal encounters from the heart of communal life the table to the countryside and finally into and beyond the wild cemetery He argues that Romantic period writers use language that ultimately betrays itself in beastly disruptions exposing anxiety over what it means to be human what happens at death the consequences of living together and the significance of being remembered Extending his discussion past an emphasis on animal rights to an examination of animals in their social context Pielak shows that these animal representations are both inherently important and a foreshadowing of the ways we continue to need images of dead and deadly Romantic beasts *A Poetry Teacher's Toolkit* Collette Drifte,Mike Jubb,2018-12-07 Professional poets spend many hours crafting a finished piece of work yet we expect children in school to sit down and write when they are told to whether they feel inspired or not This series of four books is a toolkit to help you build a positive framework for children to read write understand and enjoy poetry to bring a creative spark to the poetry classroom A combination of featured poems creative ideas structured lesson plans and differentiated photocopiable activity sheets gives the series a uniquely flexible approach which means you can use the materials in any classroom context If you re wary of poetry if you think it s boring or if you re nervous about teaching poetry then you ve chosen the right book Key themes covered in BOOK 3 Style Shape and Structure are style and structure addressing regular and standard forms the impact of layout free form found poetry and concrete poetry Other books in the series are BOOK 1 Words and Wordplay BOOK 2 Rhymes Rhythms and Rattles and BOOK 4 Language and Performance Teaching Second Grade Valerie SchifferDanoff,2000 A one of a kind teacher shares her creative ideas for helping students get the most out of their school year Illustrations Egyptian Things

Edward William Kelting, 2024 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more After the deaths of Antony and Cleopatra Rome finally took control of Egypt This occupation simultaneously facilitated and circumscribed the exchange of goods people and ideas along the paths carved across Rome's burgeoning empire In this book Edward Kelting sets out to recapture one of these systems of exchange the vibrant literary tradition known as Aegyptiaca or Egyptian things in which culturally mixed authors wrote about Egypt for a Greek and Roman audience These authors have been dismissed as not really Egyptian and their contemporary popularity has been ignored But as Kelting powerfully argues this genre in fact constitutes a vibrant intellectual tradition developed from heterogeneous influences but deeply engaged with Egypt's pharaonic past In contrast to usual narratives of Roman domination Kelting uncovers a complex project of political engagement and cultural translation in which Egyptians Greeks and Romans all participated

Representing the Modern Animal in Culture Ziba

Rashidian, 2014-10-02 Examining a wide range of works from Gulliver's Travels to The Hunger Games Representing the Modern Animal in Culture employs key theoretical apparatuses of Animal Studies to literary texts Contributors address the multifarious modes of animal representation and the range of human animal interactions that have emerged in the past 300 years

The Cambridge Companion to Literature and Animals Derek Ryan, 2023-11-09 The Cambridge Companion to Literature and Animals surveys the role of animals across literary history and opens conversations on what literature can teach us about more than human life Leading international scholars comprehensively explore how engaging with creatures of various kinds alters our understanding of what it means to write and read and why this is important for thinking about a series of cultural ethical political and scientific developments and controversies The first part of the book offers historically rooted arguments about medieval metamorphosis early modern fleshiness eighteenth century imperialism Romantic sympathy Victorian racial politics modernist otherness and contemporary forms The second part poses questions that cut across periods concerning habitat and extinction captivity and spectatorship race and post coloniality sexuality and gender religion and law health and wealth In doing so this companion places animals at the centre of literary studies and literature at the heart of urgent debates in the growing field of animal studies

Romanticism and Modernity Thomas Pfau, Robert Mitchell, 2014-07-16 Though traditionally defined as a relatively brief time period typically the half century of 1780-1830 the Romantic era constitutes a crucial indeed unique transitional phase in what has come to be called modernity for it was during these fifty years that myriad disciplinary aesthetic economic and political changes long in the making accelerated dramatically Due in part to the increased velocity of change though most of modernity's essential master tropes such as secularization instrumental reason individual rights economic self interest emancipation system institution nation empire utopia and life were also subjected to incisive critical and methodological reflection and revaluation The chapters in this collection argue that Romanticism's marked ambivalence and resistance to decisive conceptualization arises precisely from

the fact that Romantic authors simultaneously extended the project of European modernity while offering Romantic concepts as means for a sustained critical reflection on that very process Focusing especially on the topics of form both literary and organic secularization and its political correlates utopia and apocalypse and the question of how one narrates the arrival of modernity this collection collectively emphasizes the importance of understanding modernity through the lens of Romanticism rather than simply understanding Romanticism as part of modernity This book was previously published as a special issue of *European Romantic Review* Chambers's encyclopædia Chambers W. and R., Ltd, 1862 *Supporting Pupils on the Autism Spectrum in Primary Schools* Carolyn Canavan, 2015-06-19 Written to meet the needs of teaching assistants and learning support assistants this book provides a practical toolkit for supporting students on the autistic spectrum in mainstream primary schools The book offers a clear jargon free explanation of autism spectrum conditions and examines the difficulties arising from these conditions and how they can impact on students learning Addressing issues which arise on a daily basis it is full of practical advice and strategies for supporting students socially and academically across all areas of the curriculum Features include advice on supporting students through examinations examples and case studies to illustrate how the strategies described work in practice forms to help with information collection and evaluation templates to scaffold students comprehension and learning in different subject areas Packed with photocopiable resources that can be adapted to suit individual students needs this book is essential reading for teaching assistants that want to help their students on the autism spectrum to reach their full potential *Curriculum Integration in Contemporary Teaching Practice: Emerging Research and Opportunities* Brown, Susannah, Bousalis, Rina, 2017-12-30 Teaching and learning practices that are interconnected and value all subject areas benefit K 12 students by supporting creativity critical thinking communication and collaboration Curriculum Integration in Contemporary Teaching Practice Emerging Research and Opportunities is an essential scholarly resource that presents detailed information on the benefits and implementation of STREAMSS Science Technology Reading Engineering Arts Mathematics and Social Studies an interdisciplinary curriculum that meets K 12 students diverse needs by placing equal emphasis on multiple avenues of learning Highlighting topics such as educational science and technology curriculum development and instructional design this book is an ideal resource for students academicians researchers and librarians seeking current information on interdisciplinary education The Cambridge Companion to Irish Poets Gerald Dawe, 2018 A fresh accessible and authoritative study that conveys the richness and diversity of Irish poets their lives and times Poems and Essays of Charles Lamb Charles Lamb, 1879 Animal Visions Susan Mary Pyke, 2019-03-15 *Animal Visions* considers how literature responds to the harms of anthropocentrism working with Emily Brontë's *Wuthering Heights* 1847 and various adaptations of this canonistic novel to show how posthumanist dream writing unsettles the privileging of the human species over other species Two feminist and post Freudian responses Kathy Acker's poem *Obsession* 1992 and Anne Carson's *The Glass Essay* 1997 most strongly extend

Bront's dream writing in this direction Building on the trope of a ludic Cathy ghost who refuses the containment of logic and reason these and other adaptations offer the gift of a radical peri hysteria This emotional excess is most clearly seen in Kate Bush's music video Wuthering Heights 1978 and Peter Kosminsky's film Wuthering Heights 1992 Such disturbances make space for a moor love that is particularly evident in Jane Urquhart's novel Changing Heaven 1989 and to a lesser extent Sylvia Plath's poem Wuthering Heights 1961 Bront's Wuthering Heights and its most productive afterings make space for co affective relations between humans and other animal beings Andrea Arnold's film Wuthering Heights 2011 and Luis Buñuel's Abismos de Pasi n 1954 also highlight the rupturing split gaze of non acting animals in their films In all of these works depictions of intra active and entangled responses between animals show the potential for dynamic and generative multispecies relations where the human is one animal amongst the kin of the world

Multispecies Futures Roman Bartosch, Liza B. Bauer, Alexandra Böhm, Micha Gerrit Philipp Edlich, Greta Gaard, Björn Hayer, Andreas Hübner, Michaela Keck, Maria Moss, Jobst Paul, Mieke Roscher, Pamela Steen, Nils Steffensen, 2022-06-14 In light of the dramatic growth and rapid institutionalization of human animal studies in recent years it is somewhat surprising that only a small number of publications have proposed practical and theoretical approaches to teaching in this inter and transdisciplinary field Featuring eleven original pedagogical interventions from the social sciences and the humanities as well as an epilogue from ecofeminist critic Greta Gaard the present volume addresses this gap and responds to the demand by both educators and students for pedagogies appropriate for dealing with environmental crises The theoretical and practical contributions collected here describe new ways of teaching human animal studies in different educational settings and institutional contexts suggesting how learners equipped with key concepts such as agency or relationality can develop empathy and ethical regard for the more than human world and especially nonhuman animals As the contributors to this volume show these cognitive and affective goals can be achieved in many curricula in secondary and tertiary education By providing learners with the tools to challenge human exceptionalism in its various guises and related patterns of domination and exploitation in and outside the classroom these interventions also contribute to a much needed transformation not only of today's educational systems but of society as a whole This volume is an invitation to beginners and experienced instructors alike an invitation to reconsider how we teach human animal studies and how we could and should prepare learners for an uncertain future in ideally a more egalitarian and just multispecies world With contributions by Roman Bartosch Liza B. Bauer Alexandra B. hm Micha Gerrit Philipp Edlich Greta Gaard Björn Hayer Andreas Hübner Michaela Keck Maria Moss Jobst Paul Mieke Roscher Pamela Steen and Nils Steffensen
