Animals in Young Adult Fiction Walter Hogan, 2009-07-01 Of the many themes occurring in young adult literature one that bears more extensive exploration is the adolescent animal connection Although substantial critical commentary has addressed children's animal stories and animals in adult fiction very few studies have been devoted to adolescent animal encounters In *Animals in Young Adult Fiction* Walter Hogan examines several hundred novels and stories to explore the ways in which animals are represented in these works In addition to providing an historical survey Hogan looks at both realistic fiction and speculative works including fantasy supernatural horror and science fiction Hogan reviews stories that feature wild animal encounters stories centered on relationships with horses dogs and other working and performing animals and those featuring relationships with pets Drawing upon established scholarship this book examines human animal relationships from multiple angles making it an invaluable resource for librarians teachers and students of children's and young adult literature

Neoliberalism and Young Adult Fiction Sean P. Connors, Roberta Seelinger Trites, 2025-03-17 In the twenty first century the influence of neoliberalism the belief that society benefits when both individuals and corporations are free to maximize their talents in the service of responding to social needs and problems resonates through all domains of human life And yet little critical study has been given to the reproduction of a neoliberal social order in YA literature *Neoliberalism and Young Adult Fiction* Exceptionalism Exploitation and Erasure examines how some YA literature naturalizes neoliberalism in positioning teenagers as self enclosed competitive individuals At the same time however the authors also examine other YA novels as potential sites of resistance that acknowledge teenagers agency to reject neoliberalism's destructive impulses and to work for social justice and equality through collective action With that in mind the authors of *Neoliberalism and Young Adult Fiction* analyze such concepts as how the exceptionality of specific characters who embody neoliberal ideals leads to self enclosed individualism and how environmental exploitation and consumerism lead to destructive effects The book progresses to an in depth examination of how racism undergirds US neoliberalism and environmental exploitation From scrutinizing racism and the rejection of neoliberalism inherent in the antiracism movement the study turns to an examination of gender specifically focusing on the relationship between sexism exploitation and embodied rejections of patriarchal thinking Indeed erasure is implicated in racism sexism and all forms of discrimination that are borne of exploitation Finally youth activism with its rejection of neoliberal ideologies leads to a culminating chapter about how global youth link YA literature to their protest movements

Talking Animals in Children's Fiction Catherine Elick, 2015-03-25 Talking animal tales have conveyed anticruelty messages since the 18th century beginnings of children's literature Yet only in the modern period have animal characters become true subjects rather than objects of human neglect or benevolence Modern fantasies reflect the shift from animal welfare to animal rights in 20th century public discourse This revolution in literary animal human relations began with Lewis Carroll's *Alice's Adventures in Wonderland* and continued with the work of Kenneth

Grahame Hugh Lofting P L Travers and E B White Beginning with the ideas of literary theorist Mikhail Mikhailovich Bakhtin this book examines ways in which animal characters gain an aura of authority through using language and then participate in reversals of power The author provides a close reading of 10 acclaimed British and American children s fantasies or series published before 1975 Authors whose work has received little scholarly attention are also covered including Robert Lawson George Selden and Robert C O Brien

Constructing Adolescence in Fantastic Realism Alison Waller, 2010-12-22 Constructing Adolescence in Fantastic Realism examines those fundamental themes which inform our understanding of the teenager themes that emerge in both literary and cultural contexts Models of adolescence do not arise solely from discourses of psychology sociology and education Rather these models frameworks including developmentalism identity formation social agency and subjectivity in cultural space can also be found represented symbolically in fantastic tropes such as metamorphosis time slip hauntings doppelgangers invisibility magic gifts and witchcraft These are the incredible

supernatural and magical elements that invade the everyday and diurnal world of fantastic realism In this original study Alison Waller proposes a new critical term to categorize a popular and established genre in literature for teenagers young adult fantastic realism Though fantastic realism plays a crucial part in the short history of young adult literature up until now this genre has typically been overlooked or subsumed into the wider class of fantasy Touching on well known authors including Robert Cormier Melvin Burgess Gillian Cross Margaret Mahy K M Peyton and Robert Westall as well as previously unexamined writers Waller explores the themes and ideological perspectives embedded in fantastic realist novels in order to ask whether parallel realities and fantastic identities produce forms of adolescence that are dynamic and subversive One of the first studies to deal with late twentieth century fantastic literature for young adults this book makes a valuable contribution to our understanding of adult attitudes toward adolescent identity Literature for Young Adults Joan L. Knickerbocker, 2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read It explores a great variety of works genres and formats but it places special emphasis on contemporary works whose nontraditional themes protagonists and literary conventions make them well suited to young adult readers It also looks at the ways in which contemporary readers access and share the works they are reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs In addition to traditional genre chapters Literature for Young Adults includes chapters on literary nonfiction poetry short stories and drama cover art picture books illustrated literature and graphic novels and film It recognizes that while films can be used to complement print literature they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with The book's discussion of literary language including traditional elements as well as metafictional terms enables readers to share in a literary conversation with their students and others when communicating about books It will help readers teach young adults the language they need to articulate their responses to the books they are reading

Gothic Animals Ruth Heholt, Melissa Edmundson, 2019-12-10 This book begins with the assumption that the presence of non human creatures causes an always already uncanny rift in human assumptions about reality. Exploring the dark side of animal nature and the otherness of animals as viewed by humans and employing cutting edge theory on non human animals eco criticism literary and cultural

theory this book takes the Gothic genre into new territory After the dissemination of Darwin's theories of evolution nineteenth century fiction quickly picked up on the idea of the animal within Here the fear explored was of an unruly defiant degenerate and entirely amoral animality lying mostly dormant within all of us However non humans and humans have other sorts of encounters too and even before Darwin humans have often had an uneasy relationship with animals which as Donna Haraway puts it have a way of looking back at us In this book the focus is not on the animal within but rather on the animal with out other and entirely incomprehensible

The Reception of Ancient Greece and Rome in Children's Literature, 2015-09-07 Greece and Rome have long featured in books for children and teens whether through the genres of historical fiction fantasy mystery stories or mythological compendiums These depictions and adaptations of the Ancient World have varied at different times however in accordance with changes in societies and cultures This book investigates the varying receptions and ideological manipulations of the classical world in children's literature Its subtitle *Heroes and Eagles* reflects the two most common ways in which this reception appears namely in the forms of the portrayal of the Greek heroic world of classical mythology on the one hand and of the Roman imperial presence on the other Both of these are ideologically loaded approaches intended to educate the young reader

Female Heroes in Young Adult Fantasy Fiction Leah Phillips, 2024-08-22 Hero stories are deeply rooted in Western Culture From religion and myth to blockbuster films and YA literature the story is everywhere and it shapes how we the ones who hear and see it understand the world around us For too long hero stories which could also be called dominant discourse have undertaken this social and cultural work through the archetypal hero a white often god touched young man who exists in opposition and superiority to that which he is not including adolescent girls This paradigm works by imposing radical alterity on that which is not hero to ensure his heroicness Crucially while this exclusion affects all girls it does not do so evenly If the girl is also Black or Brown disabled or otherwise not performing expected and accepted versions of adolescent girlhood marginalisation increases *Female Heroes* explores how the heroes in a subgenre of YA fantasy one it names mythopoeic YA intervene in this narrative of superiority by breaking the boundaries and blurring the borders of what it means to be hero girl and even human These heroes such as Tamora

Pierce's Alanna the Lioness Marissa Meyer's Cinder and the heterogeneous crew at the heart of Leigh Bardugo's Six of Crows duology disrupt heroic norms and standards by occupying the spaces between oppositions. This occupation frustrates violent hierarchy, radical alterity, and erasure, particularly of bodily difference, while also disrupting isolating individuality. In so doing, female heroes offer an alternative and inclusive model of being hero, one directly impacting adolescent girlhood and beyond.
