Sounds Wild and Broken David George Haskell, 2022-04-19 An awe inspiring exploration of the sounds of the living Earth and the joys and threats of human music language and noise A symphony filled with the music of life fascinating heartbreaking and beautifully written ELIZABETH KOLBERT author of *The Sixth Extinction* *Sounds Wild and Broken* affirms Haskell as a laureate for the earth his finely tuned scientific observations made more potent by his deep love for the wild he hopes to save NEW YORK TIMES Wonderful a reminder that the narrow aural spectrum on which most of us operate and the ways in which human life is led blocks out the planet's great orchestral richness GUARDIAN We live on a planet alive with song music and speech David George Haskell explores how these wonders came to be In rainforests shimmering with insect sounds and swamps pulsing with frog calls we learn about evolution's creative powers From birds in the Rocky Mountains and on the streets of Paris we discover how animals learn their songs and adapt to new environments Below the waves we hear our kinship to beings as different as snapping shrimp toadfish and whales In the startlingly divergent sonic vibes of the animals of different continents we experience the legacies of plate tectonics the deep history of animals and their movements around the world and the quirks of aesthetic evolution Starting with the origins of animal song and traversing the whole arc of Earth's history Haskell

illuminates and celebrates the emergence of the varied sounds of our world In mammoth ivory flutes from Paleolithic caves violins in modern concert halls and electronic music in earbuds we learn that human music and language belong within this story of ecology and evolution Yet we are also destroyers now silencing or smothering many of the sounds of the living Earth Haskell takes us to threatened forests noise filled oceans and loud city streets to show that sonic crises are not mere losses of sensory ornament Sound is a generative force and so the erasure of sonic diversity makes the world less creative less beautiful Sounds Wild and Broken is an invitation to listen wonder act Absolutely fascinating MARIELLA FROSTRUP TIMES RADIO Enlightening and sobering JINI REDDY METRO Merenstein y Gardner. *Manual de cuidados intensivos neonatales* Sandra Lee Gardner, Brian S.
